Grant Description

Please fill in all blanks.

Do not refer to attachments in your summaries.

Do not attach separate sheets.

Briefly summarize the overall purpose/objective of the grant and indicate how this grant will contribute to the needs and goals of your School Improvement Plan and/or District Plan. (Not grant activities)

The purpose of this grant project is to start an electronic portfolio requirement for VPA students as a requirement of participation in VPA. We are committed to post-secondary education and believe that the creation of a portfolio such as this will give our students an edge to get into the best colleges and universities. Students will create the electronic portfolio during their junior year of high school. They will learn how to use the various technological programs to create the best product possible.

Briefly list grant program activities (what is going to be done with the grant funds):

Students will decide as a class what elements make up a good electronic portfolio. They will then collect the artifacts and put them together (video clips, sound clips, pictures of art work, etc.) using a portable laptop and camera. They will then create electronic portfolio with all of the needed elements, and once it is finished, send it to the colleges along with their application. The students who create the portfolios will present them to their classes for feedback and suggestions, and also possibly presented to the parents as well.

Please provide a brief explanation of pertinent budget items that will be funded through this grant. (Please indicate if funds will be used for new/old staff position, contracted services, travel, materials/supplies, equipment/furniture, facilities, and other applicable items.)

Macintosh 17-inch 2.66 GHz MacBook Pro - \$2599.00 - will be used to create portfolios, portable
Canon EOS Rebel Xsi Camera Kit - \$799.95 - to take high quality pictures of student art work and head shots
Final Cut Studio 2 - \$1299.00 - video and sound editing software that will allow students to create the best possible representations of their craft

How will grant activities be continued after the end of grant period?

Each year, we will continue to add students to the number of students creating electronic portfolios. In 5 years time, we will make the electronic portfolio a requirement of graduation from the VPA program.
