2013-2014 BUDGET
SPECIAL REVENUE FUNDS
FEDERAL, STATE, AND LOCAL GRANTS

OVERVIEW

Special Revenue Funds – Federal, State, and Local Grants are used to account for specific revenue sources that are legally restricted for specified purposes. The Special Revenue Fund tracks grants and entitlements that are received by the District from various federal, state, and local agencies.

To receive grant funds, projects must be approved by the School Board and the Department of Education or other governing agency. The budget amendment process for these grants reflects the fact that the critical decision on budget approval is made when the Board authorizes the grant submission. Subsequently, if and when the granting agency approves the award, the authorization of the budget is considered to have been approved. The Special Revenue Fund must be carefully monitored to ensure that all expenditures are itemized in the approved budget and occur within a stipulated time period.

The Special Revenue Funds – Federal, State, and Local Grants budget for 2013-2014 is \$25,883,045. See pages 7 and 8 for a Summary of Grants by fund source and Code of Federal Domestic Assistance (CFDA) number. The budget will continue to grow throughout the fiscal year as additional grants are received.

The majority of Special Revenue Fund grants are administered through the State of Florida Distributive Aid Program. Each grant requires separate accounting within the fund for revenues and expenditures, and submission of monthly expenditure reports to the Florida Department of Education Comptroller's Office.

The Special Revenue Fund contains two major federal entitlement programs.

- The Individuals with Disabilities Act (IDEA), which is comprised of IDEA Part B, IDEA Pre-K, FDLRS Learning Resource Part B, and FDLRS Pre-K. IDEA grants are federal entitlements designed to assist school districts to meet the excess cost of special education and related services for students with disabilities. The IDEA grants account for \$10,660,522 or 41% of the Special Revenue Fund budget with approximately 81% of the IDEA budget allocated for salaries and benefits.

- The Elementary and Secondary Education Act (Title I), which is comprised of Title I Basic Part A, Title I Migrant, Title I CWT & SES. Title I grants are federal entitlements designed to provide supplemental reading, writing, and mathematics instruction services in eligible elementary, middle, and high schools. The Title I grants account for \$9,089,354 or 35% of the total Special Revenue Fund budget with approximately 87% of the Title I budget allocated for salaries and benefits.

SPECIAL REVENUE FUNDS
FEDERAL, STATE, AND LOCAL GRANTS

OVERVIEW - continued

To prepare for a possible reduction in funding for 2014-15, select entitlement grants have included a possible 8 percent hold back that will serve to minimize a possible funding cliff that may arise between fiscal year 2013-14 and 2014-15. This amount is included in their regular line items.

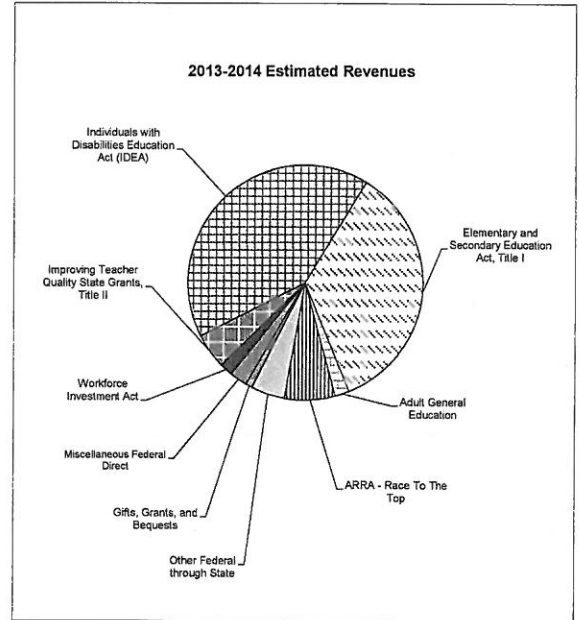

An approved indirect cost rate is established each year based on the percentage of District indirect operating expenditures from the preceding fiscal year. The percentage is applied to Special Revenue Fund projects that have been approved to recover indirect costs and paid to the General Fund to offset overhead. The approved rate for the 2012-2013 fiscal year was 3.37% with payments to the General Fund of approximately \$472,602. The Department of Education has approved an Indirect Cost rate of 4.35% for the 2013-14 fiscal year.
