Grant Purpose	Grant funds will allow development of an intelligently-linked system that provides teachers and administrators with a tool for easy visualization and rapid analysis of student and teacher data. Needs will be easily identified and linked to appropriate professional development. In addition, teacher cohorts will learn how to use self-collected videos to improve their instructional practice.
Grant Activities	Grant funds will allow computer programmers and instructional specialists to identify ways to intelligently link and produce color-coded charts and tables which help teachers and administrators identify professional development needs and resources quickly and effectively. More teachers will understand and use self-collected videos to improve their practice, and videos and other resources will be readily available to all staff.
Grant Budget Items	Grant funds will provide salary support for computer programmers and instructional specialists, substitutes and clerical support as well as travel funds, technology for video recording, instructional materials and an external evaluator.
After Grant Plans	

	Technology will already be purchased, staff will be trained and the professional development system will be fully developed, making it relatively easy and inexpensive to sustain.
