**Management's Discussion and Analysis**  
**June 30, 2017**

The management of the School Board of Sarasota County, Florida (the District) has prepared the following discussion and analysis to (a) assist the reader in focusing on significant financial issues; (b) provide an overview and analysis of the District's financial activities; (c) identify changes in the District's financial position; (d) identify material deviations from the approved budget; and (e) highlight significant issues in individual funds.

Because the information contained in the Management's Discussion and Analysis (MD&A) is intended to highlight significant transactions, events and conditions, it should be considered in conjunction with the District's financial statements and notes to the basic financial statements.

**FINANCIAL HIGHLIGHTS**

Key financial highlights for the 2016-17 fiscal year are as follows:

- General revenues totaled \$511,260,834, or 89 percent of all revenues. Program specific revenues in the form of charges for services, operating grants and contributions, and capital grants and contributions totaled \$60,978,144, or 11 percent. Total revenues increased by \$26,278,882 from \$545,960,096 in fiscal year 2015-16 to \$572,238,978 in fiscal year 2016-17. The change is primarily attributed to an increase in the required local portion of funding the Florida Education Finance Program (FEFP) through property tax revenues.
- Expenses totaled \$528,315,129, only \$60,978,144 of these expenses were offset by program specific charges, with the remainder paid from general revenues. Total revenues exceeded total expenses by \$43,923,849. Total expenses increased \$14,138,205 or 3 percent, from \$514,176,924 in fiscal year 2015-16. This change is primarily attributed to an average 4 percent negotiated salary settlement and increase benefits costs.
- The expenses in the District's proprietary funds increased by \$22,043,872 from \$28,759,531 in fiscal year 2015-16 to \$50,803,403 in fiscal year 2016-17. This change is primarily attributed to the District's decision to self-insure the cost of medical benefits beginning January 1, 2016.
- The unassigned fund balance of the General Fund, representing the net current financial resources available for general appropriation by the Board, totaled \$47,480,009 at June 30, 2017 or 11.2 percent of General Fund total budgeted appropriations and transfers out.

**OVERVIEW OF THE FINANCIAL STATEMENTS**

The basic financial statements consist of three components:

- Government-wide financial statements
- Fund financial statements
- Notes to the basic financial statements

In addition, this report presents certain required supplementary information, which includes management's discussion and analysis.

**GOVERNMENT- WIDE FINANCIAL STATEMENTS**

The Government-wide financial statements provide both short-term and long-term information about the District's overall financial condition in a manner similar to those of a private-sector business. The statements include a statement of net position and a statement of activities that are designed to provide consolidated financial information about the governmental activities of the primary government presented on the accrual basis of accounting. The statement of net position provides information about the government's financial position, its assets, deferred outflows of resources, liabilities, and deferred inflows of resources using an economic resources measurement focus. The difference between the assets, deferred outflows of resources, liabilities, and deferred inflows of resources, the net position, is a measure of the financial health of the District. The statement of activities presents information about the change in the District's net position, the results of operations, during the fiscal year.

The Government-wide statements present the District's activities in two categories:

- Governmental activities – This represents most of the District's services including its educational programs: basic, vocational, adult and exceptional education. Support functions such as transportation and administration are also included. Local property taxes and the State's education finance program provide most of the resources that support these activities.
- Component units –The District presents eleven separate legal entities in this report. Although legally separate organizations, the component units are included in this report because they meet the criteria for inclusion provided by generally accepted accounting principles. Ten of these organizations are charter schools. Financial information for these component units is reported separately from the financial information presented for the primary government. The Financing Corporation for the School Board of Sarasota County (Corporation), although also legally separate, was formed to facilitate financing for the acquisition of facilities and equipment. Due to the substantive economic relationship between the Board and the Corporation, the Corporation is included as an integral part of the primary government. Please refer to Note 1 to the basic financial statements for more information on the District's component units.

Over a period of time, changes in the District's net position are an indication of improving or deteriorating financial condition. This information should be evaluated in conjunction with other non-financial factors, such as changes in the District's property tax base, student enrollment, and the condition of the District's capital assets including its school buildings and administrative facilities.

**FUND FINANCIAL STATEMENTS**

Fund financial statements are one of the components of the basic financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements and prudent fiscal management. State law establishes certain funds, while others are created by legal agreements, such as bond covenants. Fund financial statements provide more detailed information about the District's financial activities, focusing on its most significant or "major" funds rather than fund types. This is in contrast to the entity-wide perspective contained in the Government-wide statements.

All of the District's funds may be classified within one of three broad categories:

Governmental Funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the Government-wide financial statements. However, the governmental funds utilize a spendable financial resources measurement focus rather than the economic resources measurement focus found in the Government-wide financial statements. This financial resources measurement focus allows the governmental fund statements to provide information on near-term inflows and outflows of spendable resources as well as balances of spendable resources available at the end of the fiscal year. Consequently, the governmental fund statements provide a detailed short-term view that may be used to evaluate the District's near-term financing requirements. This short-term view is useful when compared to the long-term view presented as governmental activities in the Government-wide financial statements. To facilitate this comparison, both the governmental funds balance sheet and the governmental funds statement of revenues, expenditures, and changes in fund balances provide a reconciliation of governmental funds to governmental activities.

Proprietary Funds. Proprietary funds may be established to account for activities in which a fee is charged for services. The District maintains one type of proprietary fund, the internal service fund to account for the District's self-insurance programs. Since these services predominantly benefit governmental rather than business-type functions, the internal service funds have been included within governmental activities in the Government-wide financial statements.

Fiduciary Funds. Fiduciary funds are used to report assets held in a trustee or fiduciary capacity for the benefit of external parties, such as student activity funds. Fiduciary funds are not reflected in the Government-wide statements because the resources are not available to support the District's own programs. In its fiduciary capacity, the District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes. The District uses agency funds to account for resources held for student activities and groups.

**GOVERNMENT- WIDE FINANCIAL ANALYSIS**

Net position may serve over time as a useful indicator of a government's financial position and provides a perspective of the District as a whole. The following is a summary of the District's net position as of June 30, 2017, compared to net position as of June 30, 2016:

	Governmental Activities			Percentage Change
	6/30/2017	6/30/2016	Increase (Decrease)

<b>Total deferred inflows</b>	<b>22,002,327</b>	<b>23,492,373</b>	<b>(1,490,046)</b>	-6%

<b>Total net position</b>	<b>\$ 808,854,145</b>	<b>\$ 764,930,296</b>	<b>\$ 43,923,849</b>	6%

The largest portion of the District's net position reflects its investment in capital assets (e.g., land, buildings, furniture and equipment), less any related debt still outstanding. The District uses these capital assets to provide services to students; consequently, these assets are not available for future spending.

As a result of implementing GASB 68, *Accounting and Financial Reporting for Pensions*, and GASB 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date*, the unrestricted portion of the District's net position as of 6/30/2017 and 6/30/2016 reflects a negative balance. The net pension liability and deferred outflows and inflows related to pensions represents more than 100% of the negative unrestricted net position. Thus, the unrestricted net position excluding pensions as of 6/30/17 and 6/30/16 is \$37,616,741 and \$16,566,812 respectively.

The restricted portion of the District's net position represents resources that are subject to external restrictions on how they may be used.

**Expenses – Governmental Activities – in Millions of Dollars**

Overall total revenues increased by \$26,278,882, or 5 percent from the fiscal year ended June 30, 2016. The change was primarily attributed to an increase in the required local funding portion of the FEFP through property tax revenues.

Total expenses increased by \$14,138,205, or 3 percent from the fiscal year ended June 30, 2016. The change is primarily attributed to an average 4 percent negotiated salary settlement and increase benefits costs.

**FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS**

The District completed the year with a total governmental fund balance of \$162,679,103, an increase of \$20,740,677 or 15 percent from last year's ending fund balance of \$141,938,436. The increase in District fund balance is primarily attributed to revenue received from discretionary property taxes as a result of increased assessed valuation and reduced average salaries as the result of numerous retirement over the past few years.

**Major Governmental Funds**

**General Fund**

The General Fund is the primary operating fund for the District. Presented below is an overall analysis of the General Fund as compared to the prior year:

	<u>6/30/2017</u>	<u>6/30/2016</u>	<u>(Decrease)</u>	<u>Change</u>
Revenue	\$ 410,888,225	\$ 397,890,030	\$ 12,998,195	3%

Ending fund balance	73,434,844	58,877,796	14,557,048	25%
<b>Total</b>	<u><u>\$ 490,031,878</u></u>	<u><u>\$ 462,517,916</u></u>	<u><u>\$ 27,513,962</u></u>	6%

The District's General Fund ending fund balance increased by \$14,557,048 or 25 percent. This increase is primarily attributed to revenue received from discretionary property taxes as a result of increased assessed valuation. While the District's increased enrollment generated additional earned revenue, there was a holdback of state funding in the amount of \$116,091 for a proration to funds available which reduced the amount of actual state revenue received by the District. It should be noted that \$2,251,118 of ending fund balance has been encumbered for specific projects.

**GENERAL FUND BUDGETARY HIGHLIGHTS**

During the fiscal year, the District revised its budget and brought three amendments to the Board. These amendments were needed to adjust to actual revenues and direct resources where needed. The Board approves the final amendment to the budget after year-end. The original 2016-17 budget was prepared on a conservative basis as the State of Florida had experienced multiple years of revenue shortfalls and corresponding prorations of state funding were imposed on school districts. Budgeted expenditures decreased \$1,937,167 from the original budget due to reduced average instructional salaries as the result of a considerable number of retirements and savings on benefits in part from becoming self-insured. Actual expenditures were \$7,081,239 below the final amended expenditure budget.

**ECONOMIC FACTORS**

The unemployment rate in June 2017 for Sarasota County was 3.9 percent, which is a decrease of 0.9 percent from June 2016. The State's average unemployment rate in June 2017 was 4.3 percent. Florida's unemployment rate has decreased 0.6 percent while the nation's unemployment rate has decreased 0.8 percent from the prior year.

The State of Florida funds the District through the FEFP which is based on student enrollment. During the economic downturn, revenue to the District through the State and Local FEFP declined due to the slowing of growth as well as state funding shortfalls. Beginning in fiscal year 2012-13, the District realized its first small increase in FEFP funding since the economic downturn. The District has continued to see an incremental increase in funding, but revenue growth has not kept pace with the change in the Consumer Price Index. Growth in student enrollment has also contributed to the steady increase in State revenue generated by the FEFP.
