

Summer 2012 Projects

Project Title	Project Description
Gocio Portables	Demolish the xx portable over 20 years old and replace them with xx excess portables currently on other campuses
Fruitville Thermal Energy Storage	Add 15 thermal storage tanks to Fruitville Elementary School (already plumbed to support the addition) to take advantage of both FPL rebates and off-peak rates
Bayhaven Building 4 Renovations and Building 1 Bathroom renovations	Interior renovation of building four to include new flooring, paint, lighting and air handlers. Renovation of four group bathrooms in building one to include ADA upgrades, tile, partitions and fixtures.
Englewood Window and Door Hardware Replacement	Project driven by deficiencies due to age. Replacement of inefficient and deteriorated windows in several buildings and upgrade of door hardware
Glenallen building 7 HVAC Upgrade and Fire Alarm Upgrade	Replacement of all airside equipment in the building due to age deterioration. Replacement of the fresh air chiller due to age and upgrade of aging fire alarm panel.
Venice Middle School TV Studio Upgrade and Fire Alarm panel Upgrade	This project will provide both new equipment and upgrade of fits and finishes within the TV studio space to meet current district standards at the middle school level. In addition the fire alarm panel for the school will be upgraded.
Oak Park Building 5 Waterproofing, Stucco repair, and Window Replacement	This project will provide for numerous stucco repairs, building repainting, and replacement of windows which are deteriorated due to age and application.
Pineview Fume Hood Installation	This project will add additional science lab capacity and functionality to the campus.

South County Fleet Maintenance	LRP is identifying parcels for a south county bus parking lot, refueling depot and inspection/minor maintenance center. Once selected a project scope will be developed.
South County Zone Team	A zone team facility including portable office space and limited storage will be sited on the Heron Creek school site to reduce the response distance to south count schools.
Sarasota HS Preparatory Work	Work will include relocating the student parking, way finding, and minor other work associated with the project start up.
Glenallen HVAC & Fire Alarm	Work will improve HVAC and fire alarm panel(s).
Pine View Kitchen	Work replaces the freezer and cooler in the kitchen.
