# The School Board of Sarasota County, Florida General Fund Budget Work Session April 21, 2015

#### **Executive Summary**

The first week of April both the Senate and the House passed their proposed budget bills. The major difference between the two budget bills is in the area of health care. There appears to be a major disagreement on the health care issue that could extend the session into May or June to arrive at a total budget. How the health care issue is resolved could also impact the final school funding appropriation. Currently the proposed funding, for both the House and Senate, is below the Governor's recommendation of \$7,176.33 per student FTE or a 3.78% increase from this year. The House has the per student FTE appropriation at \$7,129.74, for a 3.11% increase from this year. The Senate has the per student FTE appropriation at \$7,122.83, for a 3.01% increase from this year. The most significant difference between the two budget proposals is that the Senate has less funding restricted to categorical items. The Senate moved funding for digital classrooms into the base student allocation and has less allocated in the other categorical items. The Senate's base student allocation is \$4,183.72 and the House is \$4,130.20. The Senate proposal gives more flexibility by having less revenue tied to the categorical appropriations.

The General Fund 2015-2016 appropriations have been computed based upon the following:

- A) Salaries In negotiations ratified by the School Board in November, the performance supplement of 2.5% was a one-time allocation. In computing salaries for 2015-2016 the 2.5% has been removed. Included in the negotiated settlement was if the 2015-2016 base student allocation exceeds \$4,164.00, a 1.25% cost of living will be placed on next year's salary schedules. The 1.25% is computed for the Senate proposal and the Governor's proposal. Under the House proposal, the base student allocation is below the negotiated threshold, so there is no increase included in salaries. Salaries for approximately 52 new staff have been built into the budget to accommodate student growth.
- B) Benefits The group health plan is projected to increase by 10% effective 1/1/16 and the other benefits are increasing based upon the hiring of additional staff for increased student enrollment.
- C) Purchased Services Charter Schools A student increase of 485 students is anticipated. The per student dollar amount and various categorical programs that the charter schools participate in have been computed based upon the individual Legislative proposals.
- D) Purchased Services District The computation is based upon a 2% increase in cost of services.
- E) Energy Services The computation is based upon the cost of oil remaining below \$100 a barrel.
- F) Materials and Supplies The increase is based upon anticipating the total categorical instructional material allocation plus carry forward that will be used in the 2015-2016 budget.
- G) Capital Outlay and Other Expenses The increase is based upon applying a 2% increase.

#### **Other Budget Information**

Proposed House Bill 7037 establishes a formula for the distribution of capital funds to charter schools. It also adds to the list of items that can be funded from the 1.5 capital millage. One added item is enterprise software site licenses. Currently the school district spends approximately \$2-\$3 million in the General Fund that could now become eligible for transfer from the capital millage. Should this bill pass the impact on the amount the district allocates to charter schools from the current practice could result in a reduction or increase depending on final language and the amount the state allocates to charter schools. The estimated dollar amount that House Bill 7037 would allocate per student is \$529.85 per elementary student, \$572.15 per middle school student, and \$743.20 for each high school student. Currently the state funds \$312.10 for each elementary student, \$353.87 for each middle school student, and \$465.86 for each high school student. The amount that our current 1.5 capital millage funds per student is \$490.07 per student. If the state continued the current state funding and the House Bill limits the amount of capital funds that can be allocated to charters the amount currently allocated would decrease. Conversely if the state lowered funding charters from the state allocation then the amount the school board would be required to contribute would increase.
