

**AMENDMENT #4 TO AGREEMENT BETWEEN OWNER AND DESIGN  
PROFESSIONAL  
FOR DESIGN AND CONSTRUCTION ADMINISTRATION SERVICES  
PINE VIEW HVAC AND INTERIOR RENOVATION**

THIS AMENDMENT #4 to Agreement Between Owner and Design Professional for Design and Construction Administration Services is entered into this **8<sup>th</sup> day of December, 2015**, by and between The School Board of Sarasota County, Florida, a body corporate under the laws of the State of Florida (the "Owner") and Seibert Architects PA (the "Design Professional").

**R E C I T A L S**

A. The Owner and the Design Professional entered into an Agreement Between Owner and Design Professional for Design and Construction Administration Services for the **Pine View HVAC and Interior Renovation Project** (the "Agreement"), dated **September 2, 2014**.

B. The parties hereto desire to modify the Agreement, and hereby enter into this Amendment #4 to memorialize this modification.

NOW, THEREFORE, in consideration of the mutual promises made herein, the parties do hereby agree as follows:

1. The Agreement amount is hereby modified to include fees for all services included in this agreement. The total fee amount of this Agreement is **\$1,090,600.20**.

2. Exhibits "A" and "B" dated **October 20<sup>th</sup>, 2015**, attached to this Amendment #4, shall replace those originally issued with the Agreement. Exhibit "C" Seibert Architects Proposal is also attached to this **Amendment #4**.

3. The parties acknowledge and agree that, except as otherwise expressly modified or amended herein, the remainder of the terms of the Agreement shall remain

in full force and effect.

4. Where there is any conflict between the terms of this Amendment #4 and any terms of the Agreement, the terms of this Amendment #4 shall control.

IN WITNESS WHEREOF, the parties have executed this Amendment #4 as of the date first above written.

**EXHIBIT "B"**  
**SCHEDULE OF ADDITIONAL SERVICES (REVISED 10/20/2015)**

**B.1 ADDITIONAL SERVICES**

**B.1.1** On-site surface water management and drainage conceptual studies with professional guidance, reports, recommendations, biologist studies of wet areas, water retention design, filing of applications for administrative permits and for approvals of The Southwest Florida Water Management District (SWFWMD) and the Florida Department of Environmental Protection as required for development of the proposed project shall not exceed \$6,000.00.

**B.1.2** Off-site Surface Water Management and Drainage Conceptual Studies with professional guidance, reports, recommendations, biologist studies of wet areas, water retention design, filing of applications for administrative permits and for approvals of The Southwest Florida Water Management District (SWFWMD) and the Florida Department of Environmental Protection as required for development of the proposed project shall not exceed \$ N/A.

**B.1.3** Traffic impact studies, reports, recommendations and professional guidance performed by professionally trained consultants, traffic light request applications, as required by the public agencies having jurisdiction of the Project, for the purpose of preparing suggestions and recommendations for appropriate traffic circulation, ingress and egress to and from the site for off site roadways providing of professional services for the filing of applications for administrative permits and securing approvals for traffic concepts to be utilized in developing the Master Plan for proposed development of the property. Compensation for professional services shall not exceed:

**B1.3.1:** \$ N/A for study and report.

**B1.3.2:** \$ N/A for design and construction documents to implement governmental agency requests.

**B1.3.3:** \$ N/A for professional services related to the design and/or construction of roadways, pavement or traffic improvements off-site.

**B.1.4** Professional Services to coordinate, and filing of applications for permits and approvals, furnish design, construction documents, and construction administration for the installation of water supply and sewer for off-site utilities, shall not exceed \$ N/A.

**B.1.5** Professional Services to coordinate, filing of applications for permits and approvals, furnish design, construction documents, and construction administration for areas regulated by the Florida Department of Environmental Protection for project development shall not exceed \$ 4,000.00.

**B.1.6** Professional Services for full time inspection of sanitary sewer facilities designed by the Civil Engineer who shall be responsible for the completion of record drawings of all improvements required for certification to the appropriate governmental agencies shall not exceed \$ 4,000.00.

**B.1.7** Professional Services to coordinate filing of applications for Rezoning, Special Exceptions and furnishing information for approvals to Governmental Agencies regulating project site development shall not exceed \$ N/A.

**B.1.8** Design for the Administration Building 6, security remodel shall not exceed \$30,806.00

**B.1.9** Design for the addition of ceilings at the classroom building locker pods, shall not exceed \$4,320.00

**B.1.10** Design of revisions to the existing fire alarm system, shall not exceed \$15,693.00.

**B.1.11** Design power and plumbing required to replace existing water heaters in Building 5 with tankless water heaters, shall not exceed \$4,176.20.

**B.1.12** Rework the gable ends of the classroom buildings, in accordance with recommendations provided by the Owner's building envelope consultant, shall not exceed \$4,800.00.

**B1.13** Provide the technology design to replace the required cabling to both parking lot lighting poles each with four security cameras, shall not exceed \$990.00.

**B1.14** Provide the engineering and technology design for the temporary Administration Offices and Clinic portables, shall not exceed \$1,840.00.

**B1.15** Provide the architectural, engineering and technology design to relocate the majority of the equipment in IDF Room 621A in the Administration Building's Workroom to new technology cabinets along the south wall to provide visual access to both the new entry to the building on the east side and the existing entry on the west side of the building, including new cabinetry. All structured cabling in Building 6 will be replaced with CAT6 cabling. A new fiber rack will be added to the existing MDF in Rooms 912 & 912A in Building 9 to house a VoIP phone system to be installed by Owner. A 25 pair copper cable will be run from the existing Verizon Demarc from Building 13 to the MDF in Building 9. The cost of this work shall not exceed \$24,260.00.

**B1.16** Provide architectural and engineering design for campus decorative and chain link security fencing. The cost of this work shall not exceed \$24,715.00.

## B.2 SCOPE OF SERVICES EXCLUSIONS

- Printing costs
- Survey
- Geotechnical surveys, testing and reports
- Asbestos and lead paint surveys, testing, reports and removal
- New classroom building design
- ADA related design
- Design solutions for roof leaks, wall leaks window and door leaks
- Renderings and or models
- Fire sprinkler design
- Design upgrade or changes to existing low voltage (security cameras, voice/data communications, electronic/audio)
- Relocating FPL electrical vault and switch gear
- LEED/Green Globes Certifications
- Adding or modifying existing marker boards, chalkboard, tack boards, smart boards and other educational equipment and accessories
- Design for paving, site utility infrastructure improvements, traffic analysis and traffic signal design
- Correction of any current civil engineering issues on site
- SWFWMD environmental resources permitting
- Design related to parking lot improvements or additions
- Driveway modifications design Water and sewer system upgrades Lift station design
- Offsite roadway improvements
- Offsite utility improvements
- Construction Administration based on bi-weekly meeting unless a specific design issue is encountered that requires a design professional's presence on site, they will need to be there. If these should become excessive due to issues not pertaining to the design, we can discuss and determine what action needs to be taken.

ADDITIONAL SERVICES PROPOSAL FOR DESIGN AND CONSTRUCTION ADMINISTRATION SERVICES FOR THE ADDITION OF DECORATIVE AND CHAIN LINK SECURITY FENCING TO THE PINE VIEW CAMPUS

**General project description:**

The fencing design shall be based in information provided by the Owner's representative in the form of an exhibit which includes a partial site plan with labels articulating the principal features desired. This exhibit is attached at the end of this proposal and serves as a graphic program to guide the development of the security fencing design.

**Design Services to include:**

Determine emergency egress requirements in accordance with current code and design security fencing and gates as needed to satisfy emergency egress requirements and the Owner's goals for security fencing as shown in the attached exhibit.

Prepare drawings for the Owner's review of fencing locations and configuration.

Attend meetings to review the design with the Owner's representatives.

Revise layout of security fencing based on Owner's review.

Prepare drawings and specifications to be used for bidding, permitting and construction.

Electrical engineering services required to provide electrical power for two automatic gates and four access control personnel gates as per the attached exhibit will be provided by ME3 Consulting Engineers as a consultant to Seibert Architects. Other than the security cameras that may be included at the four access control gates, no other security cameras or related security conduits are included in this scope of work.

Respond to permit review comments as required as revise drawings and resubmit as required to obtain permit.

**Construction Administration Services to include:**

Reviewing submittals.

Answering questions and RFIs pertaining to the requirements of the contract documents.

Reviewing the work in progress and at completion to verify substantial compliance with the construction documents.

Preparation and submittal of close out documents based on the Contractor's mark-ups.

**Exclusions and qualifications:**

The Architect's services shall be limited to tasks outlined in this proposal. In no case shall the Architect provide services normally performed by Consulting Engineers or others. As such, Survey work, Geotechnical services, Landscape design, Civil Engineering and Mechanical Engineering, if required, shall be provided by others.

All structural engineering required for fencing and gates shall be provided by others as part of the submittal requirements for those elements.

The Architect shall rely on the accuracy of the survey provided by the Owner. In no case shall the Architect be held responsible for discrepancies between the survey and existing conditions. If discrepancies become known to the Architect which have a material effect on the design of the fencing, the Architect shall advise the Owner of such. Additional work resulting from an inaccurate survey shall be compensated for as an additional service.

**Payment:**

Professional fees for the services outlined above total \$24,715, including the services provided by ME3. These services are to be provided as an amendment to our original agreement, dated September 2, 2014. The terms and conditions of that original agreement will apply equally to the work outlined in this proposal.

The breakdown of the fee for this work is estimated to be:

**Seibert Architects**

Principal Architect	12.5 hours @ \$150/hr = \$1875
Project Architect	36 hours @ \$130/hr = \$4680
Draftsman 1	128 hours @ \$105/hr = \$13,440

**ME3**

Senior Engineer	32 hours @ \$130/hr = \$4,160
Designer/Drafting	8 hours @ \$70/hr = \$560
