

The School Board of Sarasota County, Florida
Charter School Request for Local Capital Outlay Millage Funds

Section 1011.71(2), Florida Statutes, authorizes each school board to levy not more than 1.500 mills against a district's taxable value for school purposes for district schools, including charter schools at the discretion of the School Board..

Instructions For Request

The intent of distributing local capital millage funds to charter schools is based upon the school district's practice of transferring local capital millage funds into the General Fund of the school district for capital related operating expenditures. This practice allows charter schools to have the same level of funding for operating purposes as district schools. The estimated dollar amount is based upon the charter school's percentage of weighted FTE as a percentage of the total school district weighted FTE. In the request for operating capital funds please complete the appropriate line items below with the requested amounts. Please indicate the anticipated vendor/provider of the capital operating request

Charter School Name _____

Instructional Services - Please provide a Description of the Instructional Services and anticipated instructional outcomes			
Description	Anticipated vendor/provider of line item request		Amount
