Operations Measures

Recommended Key Performance Indicators

Board Workshop, February 21, 2012

					Desired
Measure Title	Frequency	Benchmark	Reason	Calculation	Trend
ivicasare ritie	rrequeries	Benefittark	incusorii	Carcalation	TTCTIG
Cost					
		Maintain			
		Financial	Indicates the financial health of the FNS		Remain
Food Service Profit & Loss	Monthly	Solvency	program	Total Profit compared to Total Loss	profitable
			Reflects the cost of maintenance of		
			facilities. Given constant service	Total Maintenance expenditure	
Maintenance Cost per Square Foot			evaluation reflects changes in program	divided by total square feet of	
	Annual	\$1.71 (CGCS)	efficiency	space	Down
			Reflects the cost of cleaning facilities.	Total expenditures on custodial	
Custodial Cost per Square			Given constant service evaluation	staff and supplies divided by total	
Foot	Annual	\$1.57 (CGCS)	reflects changes in program efficiency	square feet of space	Down
			Reflects energy demand over time and is		
			a measure of the success of our energy	Total quarterly KWs used divided	
KW Per Square Foot	Quarterly	53.7 (CGCS)	program	by total FISH square feet	Down
			Maintaining Portable space costs the		
			District money and does not represent		
			the most instructionally sound facility		
			practice. Should continue to decline as		
Percent of Square Feet			permanent facility utilization rate	Total square feet of portable space	
Portables	Annual	6% (Internal)	increases	divided by total FISH square feet	Down
			This is the ultimate measure of financial	Total Transportation expenditure	
Cost Per Mile	Annual	\$3.55 (CGCS)	efficiency in Transportation	divided by total miles driven	Down

Indicates the balance between our level of commitment to overall student safety (including capital and SRO)				As support of applications and products change so should IT spending. This KPI		
IT Spending per FTE Annual (Gartner) changing demands by number of employees Down Indicates the balance between our level of commitment to overall student safety (including capital and SRO)			4			
Indicates the balance between our level of commitment to overall student safety (including capital and SRO			\$5078	will help evaluate spending relative to	Total IT Operating budget divided	
of commitment to overall student safety (including capital and SRO	IT Spending per FTE	Annual	(Gartner)	changing demands	by number of employees	Down
of commitment to overall student safety (including capital and SRO	Tr spending per 112	7	(Carener)		·	201111

Satety & Security Spending I I I I I I I I I I I I I I I I I I I				· ·		
and daing technology to drive down contracts) divided by fidiliber of				and using technology to drive down	contracts) divided by number of	
Per Student Annual \$114 (Internal) costs students Level	Safety & Security Spending					
		l .	\$114 (Internal)	costs	students	Level
		l .	\$114 (Internal)	costs	students	Level
Indicates to the Board whether or not Average of project costs (total		l .	\$114 (Internal)			Level
Indicates to the Board whether or not Average of project costs (total	Per Student	Annual		Indicates to the Board whether or not	Average of project costs (total	Level
Construction Costs Per Annual (based \$166 (state Square Foot On projects) Average of project costs (total ve're spending appropriately on new construction or major renovation divided by project square feet) Down	Per Student	Annual		Indicates to the Board whether or not we're spending appropriately on new	Average of project costs (total	Level

					Desired
Measure Title	Frequency	Benchmark	Reason	Calculation	Trend
Productivity					
				Total meals served divided by labor	
Meals Per Labor Hour	Monthly	18 (Internal)	Basic productivity measure in kitchens	hours paid	Stable at 18
			One measure of productivity expressed		
Maintenance Labor			as the percent of a trades person's paid	Average become hilled to a week	
	Amarial	750/ /lintarnal)	· · · · · · · · · · · · · · · · · · ·	Average hours billed to a work	11.0
Productivity	Annual	75% (Internal)	day charged to a work order This is a productivity measure of our	order divided by available hours	Up
			· · · · · · · · · · · · · · · · · · ·		
			buses themselves. Additionally, higher		
		10.5 (00.00)	ABO means a larger piece of the state	Total number of actual riders	l
, ,	Annual	49.5 (CGCS)	funding formula	divided by number of buses	Up
			Given a stable service rating from		
			principals and a stable Custodial	Total square feet of FISH floor	
Custodial Allocations Per			Cleanliness Rating this is our measure of	space divided by number of	
Square Foot	Annual	25,536 (CGSC)	custodial productivity	custodial FTE	Up
			Measures the "productivity" of the		
			project management team. As this	Total project dollars funded and	
Dollars of Project Work		\$4 million	metric rises so does the workload of	managed annually by CSD divided	
Managed per FTE	Annual	(Internal)	Construction Services	by FTE	Up
-				As reported by Energy Education	
			Measures the productivity of our energy	Softwarewhat we would have	
		\$3 million	programmore cost avoided means a	used compared to what we	
Energy Cost Avoidance	Annual	(Internal)	more productive the program	actually used	Up
		90% of	Utilization equals money. As utilization		
		Program	rates rise cost per student falls.		
		Capacity	Postures the District for future	COFTE enrollment divided by FISH	
Facility Utilization Rate	Annual	(Internal)	construction/additions	student stations	Up
•		,	ABO measures bus productivitythis		
		about 72%	measures mechanic productivity relative	 Flat Rate hours billed divided by	
Garage Labor Productivity	Annual	(Internal)	to an industry standard.	I	Up

					Desired
Measure Title	Frequency	Benchmark	Reason	Calculation	Trend
Quality					
			A measure of meal quality is the extent		
		30,000/day	to which students elect to eat school		
Meals Served	Monthly	(Internal)	lunch	Total daily meal equivalents served	Up
		USDA			
		Guidelines for			
		NSLP & NSBP			
		Consistent	Nutrients measured on a monthly basis:		
		with IOM	Calories, Fat, Saturated Fat, Protein,	Nutritional value of choices made	Exceed
Nutritional Value	Monthly	Guidelines	Calcium, Iron, Vitamin A, and Vitamin C.	by students at the point of sale	benchmark
On-time Performance of Buses			Getting students to school on time is the	Number of an time arrivals (w/i 10	
			primary measure of "Quality" in the	Iminutes of scheduled arrival time)	
	Quarterly	80% (CGCS)	Transportation Department.	divided by number of routes	Up
Duscs	Quarterly	00% (CGC3)	Long ride times impact students and	divided by fidiliber of routes	ОР
			learning. We're looking for a balance		
Average Daily Ride Time		45 Minutes	between efficient transportation, ABO,	Sum of student ride time divided	
for Students	Annual	(CGCS)	and ride times	by number of riders	Down
	Aimaai	(000)	Measures the quality of the custodial	by number of fluers	DOWII
			cleaning process. An important		
Custodial Cleanliness			benchmark when compared with	Average of all site inspection	
Ratings	Annual	80% (Internal)	custodial allocations per square foot	scores	Up
			регодин		
			Measures the timeliness of responses to		
			security alarms which are centrally		
		60 Seconds	monitored. Represents an indicator of	Time elapsed between alarm	
Central Alarm Response	Monthly	(Internal)	our effectiveness in asset protection	'	Up
·		-	Measures reportable incidents at		
			schools. An indication of the overall		
		Maintain	safety and security of our sites for		
SESIR	Annual	Balance	students.		Down

					Desired
Measure Title	Frequency	Benchmark	Reason	Calculation	Trend
Other					
			Indicator of socioeconomic status of		
			students in SCS and a reflection of the	Percent of students who apply and	
Free & Reduced Lunch		Varies	condition of the local economy for	qualify for free or reduced	
Percentage	Monthly	currently 48.74	school aged children and their families	breakfast and lunch	NA
			Most important thing Transportation		
			does is get students to school safely.		
			While not a cost or productivity	Total miles driven divided by the	
		35,000 (county	measure it's an important part of what	number of reportable school bus	
Miles Per Accident	Monthly	average)	we do	accidents	Up
			Growing demands from the state for		
On-Line Assessments given		None exists at	things like on-line EOCs. This metric will	Count of assessments	
in Angel	Twice a year	this time	aid in decisions about future capacity	administered through ANGEL	NA
