Estimated Start Date	11/21/2016
Estimated End Date	1/11/2017
Grant Purpose	This project will encourage all fifth grade students at our school to embrace imaginative problem solving along with a new understanding of what teamwork. Students will experience a wonderful experience of creation through the integration of the New Florida Standards for Force and Motion. There will be Arts Integrated lesson which is inspired by Rube Goldberg which will capture the student's attention and imagination. It will show a new exciting way to learn science instead of using a simple
Grant Activities	The project begins with a grade level assemble where the teaching artists will introduce the The Marvelous, Miraculous Circus Machine project. Classroom teachers will provide students with building materials as well as criteria that assists the students with constructing the machine. Finally, the grade level will attend the final event at Sailor Circus where they will see their designs that have been recreated in an overly exaggerated fashion which will demonstrate cause and effect chain react
Grant Budget Items	This grant will take care of all costs for each student as well as buses needed. Teachers and students were provided with teacher manuals, student workbooks, and student building materials.
After Grant Plans	

	After the performance, students will return to school and take a post-assessment. Students will then use the knowledge they gained from this experience to create a miniature roller coaster.
