Grant Purpose	The goal of this grant is to allow for a hands-on learning experience for our IND Students at Venice High School. We will be working on many different life, math, literacy, and communication skills. They will be cooking food, selling different items from a classroom store, creating a coffee/snack cart, and communicating with other students and staff. We

	will be able to work on many goals in their IEPs in regards to math, reading, writing, and speech goals.
Grant Activities	The grant includes creating a classroom store and coffee/snack cart. We will be able to purchase new equipment for the kitchen in order to have cooking labs. The students will work on shopping lists and ordering supplies. We are considering it a Classroom Enterprise in which we are able to encompass many different life and educational skills areas.
Grant Budget Items	The majority of the grant will go towards purchasing items in order to create the classroom enterprise. This includes kitchen items, storage units, rolling carts, cash register, calculators, uniforms, and initial stocking items for the class store.
After Grant Plans	The grant activities will be able to be continued after the end of the grant period by having enough funds being provided through the store and cart. The money raised will then help us purchase more materials and continue with the classroom enterprise.
