Grant Purpose	This amazing project will help fund additional furniture/supplies for a functional living skills "apartment" to be utilized by high school students with autism and severe/profound disabilities to learn basic housekeeping for their transition into adulthood. This aligns with our SIP and District plan to provide high quality educational opportunities for all students.
Grant Activities	Our functional living apartment program rotates stations of household chores/living activities to teach severely disabled students how to perform tasks that most of us learned and can do with ease.
Grant Budget Items	The budget will need to include furniture and household sundries to enable students to rotate from station to station within the apartment to learn how to: make a bed, sort laundry, hang clothes, stack groceries, wash dishes, clean surface areas, enjoy leisure activities, and other skills on how to successfully participate in an adult living.
After Grant Plans	The activities will be able to be continued year after year with new classes of students. The only materials that will need replenishing are sundries like cleaning products and food to use for basic food prep lessons.
