Grant Purpose	The grant will be integrating Science, Art and Music. Students will develop spatial and science skills by engineering a robot that creatively uses various types of energy to push objects, such as a brush, on canvas to create abstract art works.
Grant Activities	This grant will allow the students to purchase items such as: robots, canvas, paints and batteries that would otherwise not be affordable. Students will learn about mechanical engineering careers. They will use the scientific method to investigate and identify the energy that will be used to cause motion. They will learn about mechanical artisit's and use the art-criticism process to debate the question, "Who is the artist? The computer or the student?"
Grant Budget Items	Robots, batteries and canvas
After Grant Plans	Students will have a finished piece of artwork and a robot
