Grant Purpose	This Makerspace will provide a creative, innovative learning environment for students to practice collaborating, communicating, and stretching their critical thinking skills to produce projects and solutions right out of their imaginations.
Grant Activities	Our plan this year for the STEAM Academy Makerspace is to further develop our students' 21st century skills. We plan to do this by introducing a coding and circuits K-5 flow model. Example activities include device free robots, like the Botley Robot and coding with circuits using LittleBits. We also plan to include "Tynker Time" activities such as Keeva Planks and magnetic building tiles.
Grant Budget Items	The budget will be used to purchase Makerspace materials such as building kits, manipulatives and coding games. In addition, some furniture for the flexible seating in the Makerspace classroom will be purchased.
After Grant Plans	These resources will be used year to year with each class.
