Grant Purpose	Students at our summer Eagle Academy program will help student achievement through the exploration of the Riverview Planetarium and Aquadome facility. Students in grades kindergarten to third grade will have the opportunity to learn about the Earth's place in our solar system and to the overall connection of humans to the stars and the galaxy as a whole.
Grant Activities	Grant funds will be used to provide students the chance to view Planetarium shows presented by the Riverview Planetarium staff, as suited to the age groups and their learning objectives. Older students will visit the Aquadome and learn through hands-on experience the connection of stars to starfish, for example. Younger students will learn about space and it's connection to Earth through telescope viewings and activities focused on making connections to humans need for exploration.
Grant Budget Items	The grant budget will be used for transportation costs, powering the Planetarium, including facilities, staff costs for the Aquadome and Planetarium presentations and hands-on activities and supplies.
After Grant Plans	

	Students will be given the opportunity to show what they know through various pre and post questioning sessions and follow-up throughout the summer session through teacher led and taught materials on space exploration, read aloud, and activities in the academic environment. This includes learning about space and exploration through our summer afternoon clubs at the Eagle Academy. This will help support the learning that will take place at the Planetarium.
