The Virtual School is to provide each student with all necessary instructional materials as defined by the Department and the statute and through guidelines established by the District which may include a computer, a monitor, a printer and access to a reimbursement for Internet services. All students are required to participate in the state assessment program created in Section 1008.22 Florida statutes, and all instructional staff must be highly qualified as identified by NCLB standards and hold valid Florida teaching certificates under provisions of Chapter 1012, Florida Statutes. The Virtual Instructional Provider will establish a standard schedule for providing data for required state reporting that enables timely submission to the Department of Education. Detailed Curriculum Plan

General information

All students enrolled in the FLVS FT VIP program in grades K-8 will participate in their grade-level specific schedule, included in this document. Students in grades 9-12 will participate in a Regular, Honors, or Rigorous Academic Track with classes assigned according to credits needed for graduation in their district. The following represents the detailed curriculum plan for districts in the Virtual Instruction Program (VIP) for 2018-2019. Students performing above or below grade level may receive additional adjustments, subject to district approval as follows:

Students performing below grade level K-8

Students who are not performing at grade level will be placed in their appropriate grade-level courses but may receive additional content and instruction designed to address their deficiencies. Students who are not performing at grade level in math grades 3-8 may receive enhanced course content in math. The course codes will be the same as the standard course codes for these courses but the student's records will identify the course as "Essential." Students who scored a level 1 or 2 on the FCAT Reading test will be placed in an Intensive Reading course in place of Educational Technology and Online Learning and Art. Health and Physical Education may also be waived for these students as necessary.

Students performing above grade level K-8

Students who are above grade level may receive enhanced course content in language arts, math, or science in grades 3 through 8. The course codes will be the same as the standard course codes for these subjects in grades 3-5 but the student's records will identify the course as "Advanced, Enriched or Accelerated." In grades 6-8, course codes for Advanced content will be used. Students receiving this content will not qualify for any "gifted" designation within their resident district. Students who are well above grade level in math may receive a math course at one or more grade levels above their age-based grades with district approval.

In addition, students may be offered one (and in rare situations, more than one) additional Elective course, with district approval. Course and unit descriptions for grades K-12 are available at <https://www.flvs.net/full-time/courses>

All courses include detailed assessments to ensure student mastery of Florida requirements

The Contractor represents that to the best of its knowledge, all curriculum provided under this plan complies in all material respects to the Florida Standards for each grade level and subject.

Survey Year 2018-2019: Data Schedule

District Virtual Instruction Program (District VIP, grades K-12): Districts Submit Data

District VIP Grades and Attendance

Based on district feedback, two different Grade and Attendance reports will be sent to the districts. A “Nine Week” grade and attendance report will report the 9-week period only and is non-cumulative from the previous nine-week period. This will be reported at the close of Q1 and Q3, respectively. A “Final Semester” report will report the cumulative grade and attendance from the beginning of the semester; these reports will follow Q2 and Q4, coincident with the close of Fall and Spring semesters, respectively. The Semester report, however, will contain the nine-week’s attendance.

This will allow the districts enough time to enter the student’s schedule into the system prior to Date Certain. Then, immediately following Date Certain, a report showing ONLY the changes will be sent to the district.
