Grant Purpose	Space 21 is a space for learning, exploring, inventing, and redefining the concept of high school education into a student-driven model for community transformation. The twin pillars of team-based problem solving and meaningful work are supported with the inside-out curriculum. Students will be engaged in problem-based learning with teachers facilitating student-directed learning.
Grant Activities	Grant funds will allow creation of Space 21 school-within-a-school at Venice High School. Focused on problem-based learning, students will identify problems they wish to solve, identify students and outside experts to join their team, and meet state standards as they investigate the problem, identify possible solutions and share results with others.
Grant Budget Items	Budget includes salaries and benefits for a program director, classroom teachers, aides and substitute teachers, in-county and out-of-county travel, curricular materials and supplies, contracts with external content experts, renovation of space and purchase of appropriate furnishings.
After Grant Plans	Once up and running, regular FTE allocations should sustain the program.
