To Whom it May Concern,

I am writing in response to an email that I received about the annual agreement between the Sarasota County School Board and SCF. Our son has been benefiting greatly from the dual enrollment program offered to him as a student at Venice High School. He has successfully completed his first semester and is almost ready to complete his second semester at SCF. He has enjoyed his courses, his schedule and the relationships that he has made with his classmates and faculty members. He is planning to complete two summer classes and graduate with a high school diploma and an Associates Degree in Business from SCF in 2019.

I highly recommend that the Sarasota County School Board and SCF continue to partner together and offer this program to qualifying students.

Sincerely,

Cheryl Pickert

Mother of [REDACTED]

Dear Ms. Barber:

As a parent of high school students in Sarasota County, I wanted to enclose my endorsement of this program!

My son went through dual enrollment classes part time his junior year at North Port HS and full time his senior year. It provided the challenge he needed academically, and the financial benefits our family needed in our struggle (on-going) to afford college. He states that his senior year as a full time SCF student prepared him for going away to college a year later, due to enhanced time management skills and a knowledge of college coursework expectations. He was very happy with this opportunity and enjoyed his SCF experience.

I have a daughter who will be a senior this coming school year. She has taken advantage of as many dual enrollment courses as possible on her HS campus (less than I would like to see at Pine View, but the opportunities appear to be increasing for younger classes). She would like to follow in her brother's footsteps for senior year at SCF (we greatly appreciate Pine View's change of policy this year to allow full-time SCF students to graduate with their PV class), but due to a transportation issue, I don't think we will be able to make that happen. She will do her best with remaining dual enrollment and AP options offered at Pine View, and looks forward to her upcoming graduation.

Thank you for offering this fantastic program to the students and families in Sarasota County!

Sincerely,

Julie Tryon

Love the concept of our 11th and 12th graders being able to do dual enrollment. It gives them a flexible schedule, and helps them get ahead with some college credits.

My 11th grader took full advantage of this opportunity, and will do so again for his senior year.

Please continue to offer this partnership with SCF. I would love for my other son to have the same opportunity when he reaches 11th grade.

Yours sincerely,  
Tracy Badger

Dear Sarasota County Schools,

As requested, some feedback on the Articulation agreement between Sarasota high schools and the State College of Florida.

We fully support the concept and the program, as we have experienced the successes and rewards with our daughter who is a senior at Creekside HS in Jacksonville. They have a similar program, and she indicated the program was rewarding, and also was a key contributor in her college applications and acceptances.

We believe continuing the program for our son at Venice HS is a terrific idea.

Sincerely,

Chris and Beth Ann Long

---

**External Email - Be Suspicious of Attachments, Links and Requests for Login Information**

---

I wanted to share my thoughts on the dual enrollment program. I think the program is incredibly important and such a benefit for students. I wanted to share my daughter's view on this.

My 16 year old daughter is a Junior at Venice High School this year. She is high functioning Autistic (Asperger's to be specific) and is incredibly intelligent. My daughter is going to be participating in dual enrollment next year for her classes. This program is giving her so much more than just the opportunity to earn college credits though.

My daughter wants to go away to college, which is very hard for all of us. Structure and consistency is very important to her daily routine. Dual enrollment is giving her the opportunity to begin to experience college in a safe and comfortable environment. She is going to understand campus life more, how to self manage her time, pick up valuable learning strategies/systems that are much different from high school, and also grow her understanding of what life will be like outside of high school.

These experiences together set the children who participate in these programs up for a more successful entry into college. There is no way to fully replicate these lessons at the high school campus. The dual enrollment program is such an incredible opportunity on so many levels.

As a parent, it also helps calm some of my fears about sending my child to college. I personally wish we had taken advantage of the program prior to this year. Please let me know if you would like any other feedback. Thank you so much.

Hi,

Dual enrollment is essential to offer our students. They will be behind the rest of the kids in other districts and that will be a disadvantage they won't be able to overcome when applying to colleges. We should offer the kids the option to dual enroll of that is what they need. Please allow this.

**External Email - Be Suspicious of Attachments, Links and Requests for Login Information**

---

I am writing to voice my opinion regarding the agreement between Sarasota County Schools and SCF. I would very much like to see this agreement renewed. I have a son who has been in the Cambridge AICE program for the last 3 years and will be starting high school in the fall. I believe that for students like him it is important to have programs like this which will allow them to continue on their accelerated path. He and his classmates are already working at a high school level so they will be more than ready to move into dual enrollment classes in the next few years in order to continue to be challenged. Not only does this benefit the students but I believe it also benefits the college as it offers students and parents an earlier exposure to the college and what it has to offer. I hope this agreement is renewed so that these programs will continue to be available.

Thank you.

Hi Ms. Barber,

Thank you for giving us the opportunity to provide feedback on the Articulation Agreement. This is the first time I remember having the opportunity to read it and offer feedback.

Our daughter is a senior and is taking her 4th DE class now. She took 2 at the high school and 2 at SCF Venice. I can tell you that the information in this agreement should be made available to parents at the time classes are scheduled. This would have eliminated a lot of guesswork, frustration and running around by my daughter who this whole system is supposed to benefit. The voucher system for DE on the SCF Campus is *extremely* complicated. The procedure is laid out fairly well in this agreement but in practice it is very difficult and time consuming to navigate. I understand textbook costs have to be controlled and tracked but the burden of this is falling on the student. The guidance counselor has not been very helpful either. It seems like she doesn't fully understand the procedure. Our daughter and friends of hers last year have navigated the textbook labyrinth mostly by trial and error.

An additional reason it would be helpful for parents to have this guide is that the Early College Program and course offerings are not well explained during scheduling. The agreement answers many questions.

Thank you,

Pam Syx

Hi Ms. Barber,

I am writing to you with regard to the SCF articulation agreement specifically with regard to the DE renewal. My daughter currently participates in this program while at Pine View School. I cannot emphasize enough the benefit of this program to her and to other students. In this day and age, students are taking advantage of advanced courses at an earlier age and the district needs to keep pace with other districts in offering these opportunities to its students.

I hope the district continues with the articulation agreement and its relationship with SCF. Thanks.

I hope that you extend this program. My oldest daughter who will be graduating from the University of Georgia in 2 weeks, took advantage of this program while at Riverview High School. Between that and AP classes she was able to start as a sophomore. While she could have graduated from college earlier she chose to take more classes and will finish with a major in Advertising, a minor in fine arts and a certificate in new media in 4 years. My younger daughter will also take advantage of the program if the AICE and MaST schedule allow for it.

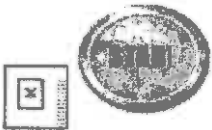

Sincerely,

Leslie Jeffrey

L

I think the Dual Enrollment program is great and should be continued. As the price of college tuition continues to rise, it leaves many students from poorer families or multiple siblings without a chance for a higher education. However, the Dual Enrollment program allows students to earn college credits within high school. This decreases the amount of classes students need to take in college. It offers those students who work hard a reward for their hard work. I think we should continue to offer this program to students.

I think dual enrollment is a wonderful opportunity for our kids. Sarasota county schools had the right vision and purpose in mind when decided to partner with this college but I had talked to former high school parents and had also contacted a couple of Florida college and they all had said that not all the college classes taken during dual enrollment are eligible for transfer. One of the parents shared with me that his daughter had an AA degree when she finished high school but had to retake those classes when transfer to another school.

My daughter still will do dual enrollment and I still think is a great idea if the expectations at the end of the program are to expose our kids to college experience and maybe obtain some college credit.

Thank you

### External Email - Be Suspicious of Attachments, Links and Requests for Login Information

---

Good Morning,

As parents of 4 beautiful children, who have chosen various directions of career choices. 3 of my children to date have taken the Technical with Dual enrollment option. They each have various skills different from each other. With this in mind, I have always fought to make sure each child has a plan B/C/D. What I mean by this, is to take a Technical program in High school while taking DE Colleges classes. This allows them to be better prepared for future endeavors.

My son who just graduated, took technical along with SCF college classes, which allowed him to obtain a career which pays over 65k.

My Daughter whom is a Junior, is taking the LPN program at SCTI along with 2 DE classes per semester. She is planning to become a CRNA Nurse.

My Next son is starting with this in August with Technical, and DE.

So, as a parent of numerous kids in your system, I am an advocate of each child having multiple plans while obtaining a degree. This helps our youth plan properly for the future. Not become dependent on parents or the government. (Let's change the cycle).

I would actually recommend to offer more college courses and technical programs. Also create with LEAP (Engineering program) Have 2 versions available. NOT ALL Students are computer savvy, and NOT ALL are hands on.

So please continue all these programs, so we can change the cycle of poverty and education.

**Subject:** FW: Articulation Agreement: Sarasota County School Board and SCF

Good morning,

I feel the Dual Enrollment agreement is an invaluable opportunity for Sarasota students! It's an amazing program which offers a true educational challenge for students with the drive to reach for knowledge above and beyond the mainstream. It would be a shame to take away such an amazing program from our students if the renewal was not made. Please accept my email as a plea to renew the articulation agreement. Thank you.

Good evening. This is the Sarasota County School District with a message regarding our partnership with the State College of Florida and our articulation agreement which includes Dual Enrollment (DE) that is up for annual renewal. We want your feedback and ask you to email your comments regarding this agreement, which outlines the opportunity for all middle and high school students to take a college program while in school.

Hello,

I am the parent of a middle school child and will be starting high school in August. I think this is absolutely a great program. Not only it benefits the students in a great way but I believe it also benefits SCF. Just to think if my daughter could participate in this dual enrollment program and have college credits by the time she graduates, it's marvelous. It will help her and other students finish their college degree early but, also get a feel of the college life and the challenges they face and prepares them for the real world.

Thank you.
