

LOOKING TO THE FUTURE

Career and Technical Education in Sarasota County Schools

CTE MILESTONES

This chart is intended only to highlight the significant accomplishments over the past several years and is not comprehensive of all of the progress made in CTE in our school district.

CTE PROGRAMS

CONTENT AREAS:

- Agriscience
- Business
- Family & Consumer Science
- STEM/Technology

- 14 Programs at all 8 Middle Schools
- Development of feeders into the high school CTE Programs
- Focus on STEM integration through the Technology Education programs
- Increasing chapters and participation in career and technical student organizations

CTE PROGRAMS

Accounting Operations Administrative Assistant Allied Health Assisting Aquaculture Architectural Drafting Auto Collision Repair & Refinishing Automotive Service Technology Biomedical Sciences Building Trades & Construction Design Business Computer Programming Business Supervision & Management Computer Systems Technology Cosmetology Criminal Justice Operations Culinary Arts

Customer Assistance Technology Digital Design Digital Video Production Drafting/Illustrative Design Early Childhood Education Electronic Business Enterprise Emergency Medical Technician Engineering Technology Entrepreneurship Fire Fighting Emergency Medical Responder Game, Simulation, Animation Geospatial/ Geographic Information Systems Technology Health & Wellness

Marine Service Technology Medical Administrative Specialist Multimedia Design Technology Nails Specialty Nursing Assistant Paramedic PC Support Services Phlebotomy Practical Nursing Surgical Technology Veterinary Assisting Wastewater Treatment Technologies Water Treatment Technologies

Fire Fighter II

Sustainability

- Consumable supplies for project-based learning applications can be costly
- Continuous upgrades for software requires continuous teacher skills upgrades
- Teacher mobility and turnover has implications for program "ownership" and teacher training
- Equipment repair/maintenance has been an issue with no budget allocations
- There is a high cost for implementing industry certifications for students (teacher training, test center costs, test vouchers)
- We have had ongoing technology issues (installation, incompatibility, student/teacher permissions)
- The increased testing demands on schools creates logistical challenges for CTE teachers, test coordinators, and registrars
- Data collection and reporting requirements have increased beyond our current capacity, both at secondary and postsecondary
- Less than 1 FTE in state funding formula for High School CTE courses
- State-imposed fee for Adult Education courses has led to 60% drop in enrollment
- Challenges with calculating student growth measures for evaluating CTE (and Adult Education) teachers

Florida Ready to Work Implementation

- Increased site-based oversight through regular Assistant Principal cohort meetings
- Implementation of STEM Academy at each comprehensive high school
- Increasing participation and success rates for industry certification for all high school CTE programs
- Significant funding generated through industry certifications and Florida Ready to Work credentials
- Investments in Newtown campus are leading to student continuing education through enrollment in SCTI full-time programs
- New Digital Video Production program is lending support through real-world applications and contributing to Education Channel content
- Simulation equipment for SCTI's health science programs exposes students to real-time health scenarios

WHAT'S NEXT?

NOW

- Middle school CAPE Academy Planning
- SCTI Rebuild
- STEM Initiatives
- Updated Articulation with SCF

New Technical Center Completed

FORESEEABLE FUTURE

- Further development of Career Academies
- Implementation of middle school
 CAPE Academies and STEM programs
- Increased student success!

Today's CTE provides students:

- academic subject matter taught with relevance to the real world
- employability skills, from job-related skills to workplace ethics
- career pathways that link secondary and postsecondary education
- second-chance education and training
- education for additional training and degrees, especially related to workplace training, skills upgrades and career advancement

"One of the biggest benefits of CTE programs is their ability to engage students in learning that is both rigorous and relevant, preparing them for postsecondary education and their future careers."

National High School Center at the American Institutes for Research (November 2, 2011)
