Grant Purpose	The HealthierUS School Challenge designation/award was created to help schools make gradual changes towards creating environments and school menus which will help children eat more healthfully and be more physically active. This grant will help bring awareness to the fact that many of our schools are at the top of their game regarding these efforts. Receiving this grant will help schools stay aligned with our Local Wellness Policy and national regulations regarding foods served in schools.
Grant Activities	Grant funds will be used to further procure equipment, supplies, services, etc. which contribute to health and wellness efforts at each individual school.
Grant Budget Items	Funds will be used to purchase materials/supplies/equipment/furniture which help encourage students to eat more healthily and be more physically active, as well as improve the wellness environment on school campuses.
After Grant Plans	Purchases made using grant funds will remain functional beyond the end of the grant period. This grant is more for the national recognition of Sarasota County Schools, as opposed to the dependency on a monetary award for grant activities.
