Grant Purpose	This is a collaborative project involving the English, Art, Digital and Music departments. We will consult with which novel(s) they feel would be the most beneficial to the student body. This is a documentary and will be videotaped and photographed during the process. Students will verbally describe the characters in the book, pass that along to the art department to draw them, then passed to the digital students to place them into the correct 3D software for the 3D printer. They need to create
Grant Activities	These funds will go to the visiting artist who will help us edit the video and add the music. It will also fund cameras and one iPad for an ESE student to video tape the process from start to finish. The 3D printer will print the hand drawn pieces in 3D plastic. The plastic material to print the characters of the book is also an expense included in the budget.
Grant Budget Items	Visiting artist \$500 3D printer \$1200 iPad \$500 video cameras (5) \$800 3D plastic printing material(7) \$297 Total is \$3297
After Grant Plans	I would like to make this an ongoing event every year and build upon it. We could have the drama department engaged in the play of the book at the same time. Perhaps create historical characters from specific time periods.
