Grant Purpose	The WMS News team is tasked with informing the school population of current events, school activities, and any other important announcements. With this grant, students will be given the opportunity to use technology to assist in their writing and public speaking skills. The objective of the grant is to use the funds to purchase necessary technology for conducting research, writing scripts, and operating teleprompters.
Grant Activities	With the grant funds we will be purchasing small laptops or tablets in order for students to write scripts, do research, and operate our teleprompters. At the moment we have no computers in our studio in order for the students to do this effectively, and our resources at the school are limited.
Grant Budget Items	Budget items include small laptops or tablets for producing scripts and operating other equipment.
After Grant Plans	Grant activities will be continued after the end of the grant period in that the students of the WMS News team will be able to continue using this technology for several years in order to maintain a high level of quality in their TV productions.
