Management's Discussion and Analysis
June 30, 2009**

The Management of the School Board of Sarasota County (the District) has prepared the following discussion and analysis to (a) assist the reader in focusing on significant financial issues; (b) provide an overview and analysis of the District's financial activities; (c) identify changes in the District's financial position; (d) identify material deviations from the approved budget; and (e) highlight significant issues in individual funds.

Because the information contained in the Management's Discussion and Analysis (MD&A) is intended to highlight significant transactions, events and conditions, it should be considered in conjunction with the District's financial statements and notes to financial statements.

FINANCIAL HIGHLIGHTS

Key financial highlights for the 2008-09 fiscal year are as follows:

- The District's financial position improved during the fiscal year ended June 30, 2009. In total, net assets increased by \$34,254,410, or 4 percent over the course of the year.
- General revenues totaled \$504,649,228, or 94 percent of all revenues. Program specific revenues in the form of charges for services, operating grants and contributions, and capital grants and contributions totaled \$33,033,361 or 6 percent. Total revenues decreased from \$611,611,878 in fiscal year 2008 to \$537,682,589 in fiscal year 2009. The change is attributed to a decrease in funding for Classrooms for Kids and a decrease in property tax revenues.
- Expenses and special items totaled \$503,428,179; only \$33,033,361 of these expenses were offset by program specific charges, with the remainder paid from general revenues. Total revenues exceeded total expenses and special items by \$34,254,410. Total expenses and special items decreased \$14,264,616 or 3 percent, from \$517,692,795 in fiscal year 2008. This change is attributed to the elimination of the 30 hour professional development requirement for teachers, deletion of 23 Technology Coordinators and the completion of both Suncoast Polytechnical High School and Woodland Middle school in the prior year.
- The unreserved fund balance of the General Fund, representing the net current financial resources available for general appropriation by the Board, totaled \$54,990,591 at June 30, 2009 or 14 percent of total General Fund expenditures.

OVERVIEW OF THE FINANCIAL STATEMENTS

The basic financial statements consist of three components:

- Government-wide financial statements
- Fund financial statements
- Notes to the financial statements

In addition, this report presents certain required supplementary information, which includes management's discussion and analysis.

Government-wide Financial Statements

The Government-wide financial statements provide both short-term and long-term information about the District's overall financial condition in a manner similar to those of a private-sector business. The statements include a statement of net assets and a statement of activities that are designed to provide consolidated financial information about the governmental activities of the Primary Government presented on the accrual basis of accounting. The statement of net assets provides information about the government's financial position, its assets and liabilities, using an economic resources measurement focus. The difference between the assets and liabilities, the net assets, is a measure of the financial health of the District. The statement of activities presents information about the change in the District's net assets, the results of operations, during the fiscal year. An increase or decrease in net assets is an indication of whether the District's financial health is improving or deteriorating.

The Government-wide statements present the District's activities in two categories:

- Governmental activities – This represents most of the District's services including its educational programs: basic, vocational, adult, and exceptional education. Support functions such as transportation and administration are also included. Local property taxes and the state's education finance program provide most of the resources that support these activities.

**SCHOOL BOARD OF SARASOTA COUNTY, FLORIDA
Management's Discussion and Analysis
June 30, 2009**

- Component units –The District presents ten separate legal entities in this report. Although legally separate organizations, the component units are included in this report because they meet the criteria for inclusion provided by generally accepted accounting principles. Nine of these organizations are charter schools. Financial information for these component units is reported separately from the financial information presented for the primary government. The Financing Corporation for the School Board of Sarasota County, Inc., although also legally separate, was formed to facilitate financing for the acquisition of facilities and equipment. Due to the substantive economic relationship between the School Board and the Financing Corporation, the Financing Corporation is included as an integral part of the primary government. Please refer to Note 1 to the financial statements for more information on the District's component units.

Over a period of time, changes in the District's net assets are an indication of improving or deteriorating financial condition. This information should be evaluated in conjunction with other non-financial factors, such as changes in the District's property tax base, student enrollment, and the condition of the District's capital assets including its school buildings and administrative facilities.

Fund Financial Statements

Fund financial statements are one of the components of the basic financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements and prudent fiscal management. Law establishes certain funds, while others are created by legal agreements, such as bond covenants. Fund financial statements provide more detailed information about the District's financial activities, focusing on its most significant or "major" funds rather than fund types. This is in contrast to the entity-wide perspective contained in the Government-wide statements.

All of the District's funds may be classified within one of three broad categories:

Governmental Funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the Government-wide financial statements. However, the governmental funds utilize a spendable financial resources measurement focus rather than the economic resources measurement focus found in the Government-wide financial statements. This financial resources measurement focus allows the governmental fund statements to provide information on near-term inflows and outflows of spendable resources as well as balances of spendable resources available at the end of the fiscal year. Consequently, the governmental fund statements provide a detailed short-term view that may be used to evaluate the District's near-term financing requirements. This short-term view is useful when compared to the long-term view

presented as governmental activities in the Government-wide financial statements. To facilitate this comparison, both the governmental balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation of governmental funds to governmental activities.

Proprietary Funds. Proprietary funds may be established to account for activities in which a fee is charged for services. The District maintains one type of proprietary fund, the internal service fund to account for the District's self-insurance programs. Since these services predominantly benefit governmental rather than business-type functions, the internal service funds have been included within governmental activities in the government-wide financial statements.

Fiduciary Funds. Fiduciary funds are used to report assets held in a trustee or fiduciary capacity for the benefit of external parties, such as student activity funds. Fiduciary funds are not reflected in the Government-wide statements because the resources are not available to support the District's own programs. In its fiduciary capacity, the District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes. The District uses agency funds to account for resources held for student activities and groups.

GOVERNMENT- WIDE FINANCIAL ANALYSIS

Net assets may serve over time as a useful indicator of a government's financial position and provides a perspective of the District as a whole.

The District uses these capital assets to provide services to students; consequently, these assets are not available for future spending.

The restricted portion of the District's net assets (13 percent) represents resources that are subject to external restrictions on how they may be used. The unrestricted net assets (3 percent) may be used to meet the government's ongoing obligations to students, employees, and creditors.

The key elements of the changes in the District's net assets for the fiscal years ended June 30, 2009 and June 30, 2008, are shown in the following table and graphs:

Management's Discussion and Analysis
June 30, 2009**

Overall total revenues decreased by 12.1 percent from the fiscal year ended June 30, 2008. Revenue decreases are primarily due to decreases in capital grants and contributions, decreased investment earnings and decreases in property taxes.

Total expenses and special items decreased by \$14,264,616, or 2.8 percent from the fiscal year ended June 30, 2008. The elimination of the 30 hour required professional development for teachers and the completion of Suncoast Polytechnical High School and Woodland Elementary School in the prior year are attributed to this decrease.

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

The District completed the year with a total governmental fund balance of \$215,979,583, an increase of \$38,131,884 over last year's ending fund balance of \$177,847,699.

Management's Discussion and Analysis
June 30, 2009**

Revenue decreased \$13,829,969, or 46%. Decreases in revenue are attributable to elimination of the Classrooms First Bonds from the State and the amount received from impact fees decreased by \$1,009,619. Other financing sourced increased by \$74,979,996 due to the issuance of the 2009 Certificates of Participation. Expenditures decreased by \$13,518,728, or 32%. The completion of Suncoast Polytechnical High School and Woodland Middle School account for most of this decrease.

GENERAL FUND BUDGETARY HIGHLIGHTS

Most District operations are funded in the General Fund. Total General Fund revenues during 2008-09 were \$9,494,184 less than originally budgeted. Amendments of \$2,000,000 were made to local revenues to adjust for increases in actual collections for property taxes beyond the 95 percent original budgeted amounts and \$11,063,550 were made to state revenues to adjust for state holdbacks.

Budget amendments for expenditures were relatively minor.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

➤ Reporting Entity

The School Board of Sarasota County, Florida (District) has direct responsibility for operation, control, and supervision of District schools and is considered a primary government for financial reporting. The Sarasota County School District is considered part of the Florida system of public education. The governing body of the school district is the Sarasota County District School Board that is composed of five elected members. The appointed Superintendent of Schools is the executive officer of the School Board. Geographic boundaries of the District correspond with those of Sarasota County.

Criteria for determining if other entities are potential component units which should be reported within the District's basic financial statements are identified and described in the Governmental Accounting Standards Board's (GASB) *Codification of Governmental Accounting and Financial Reporting Standards*, Sections 2100 and 2600. The application of these criteria provides for identification of any entities for which the District School Board is financially accountable and other organizations for which the nature and significance of their relationship with the School Board are such that exclusion would cause the District's basic financial statements to be misleading or incomplete.

Based on the application of these criteria, the following component unit(s) are included within the District School Board's reporting entity:

- Blended Component Unit The Financing Corporation of the School Board of Sarasota County, Inc. (corporation) was founded to facilitate financing for the acquisition of facilities and equipment as further discussed in Note 7. Due to the substantive economic relationship between the Sarasota County District School Board and the Corporation, the financial activities of the Corporation are included in the accompanying basic financial statements. Separate financial statements for the Corporation are not published.
- Discretely Presented Component Units The component unit(s) columns in the basic financial statements include the financial data of the District's other component units. For financial reporting purposes, nine charter schools are included in the financial statements of the District as discretely presented component units. These schools operate under a charter approved by their sponsor, the Board, and are considered to be component units of the District since they are fiscally dependent on the District to levy taxes for them. The component units are as follows:

Island Village Montessori North, Inc., Island Village Montessori Charter School, Inc., Island Village Middle School, Inc., Sarasota Suncoast Academy, Student Leadership Academy of Venice, Sarasota Military Academy, Inc., Sarasota School of Arts and Sciences, Inc., Suncoast School for Innovative Studies, Inc., and Imagine School of North Port (charter schools) are separate not-for-profit corporations organized

pursuant to Chapter 617, Florida Statutes, the Florida Not For Profit Corporation Act, and section 1002.33, Florida Statutes. The Board is responsible for the prudent use of the public funds received for providing an appropriate educational program for its targeted enrollment. Audits of the Charter Schools for the fiscal year ended June 30, 2009 were conducted by independent certified public accountants and are filed at the District's administrative office at 1960 Landings Boulevard, Sarasota, FL 34231.

➤ **Basis of Presentation**

Government-wide Financial Statements - Government-wide financial statements, including the statement of net assets and the statement of activities, present information about the School District as a whole. These statements include the nonfiduciary financial activity of the primary government and its component units.

Government-wide financial statements are prepared using the economic resources measurement focus. The statement of activities presents a comparison between direct expenses and program revenues for each function or program of the District's governmental activities. Direct expenses are those that are specifically associated with a service, program, or department and are thereby clearly identifiable to a particular function. Depreciation expenses are allocated to functions/programs of the primary government. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues are presented as general revenues, with certain exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental function or business segment is self-financing or draws from the general revenues of the District.

The effects of interfund activity have been eliminated from the government-wide financial statements. Interfund transactions, consisting of transactions involving the internal service funds, were eliminated by allocating the change in net assets of internal service funds in direct proportion as they were charged as expenses to the various function.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Fund Financial Statements - Fund financial statements report detailed information about the District in the governmental, proprietary, and fiduciary funds. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is reported in a separate column. Nonmajor funds are aggregated and reported in a single column. Because the focus of governmental fund financial statements differs from the focus of government-wide financial statements, a reconciliation is presented with each of the governmental fund financial statements. The District reports the following major governmental funds:

- General Fund - to account for all financial resources not required to be accounted for in another fund, and for certain revenues from the State that are legally restricted to be expended for specific current operating purposes.
- Debt Service – Other Debt Service Fund – to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest and related costs on the long-term certificates of participation.
- Capital Projects – Local Capital Improvement Tax Fund - to account for the financial resources generated by the local capital improvement tax levy to be used for educational capital outlay needs, including new construction, renovation and remodeling projects.
- Capital Projects – Other Capital Projects – to account for the financial resources such as Sales Tax Proceeds, Impact Fees, Certificates of Participation, etc.

Additionally the District reports the following fund types:

- Internal Service Funds - to account for the District's individual self-insurance programs.
- Agency Funds - to account for resources of the school internal funds which are used to administer moneys collected at the several schools in connection with school, student athletic, class, and club activities.

➤ Basis of Accounting

Basis of accounting refers to when revenues and expenditures, or expenses, are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The government-wide financial statements are prepared using the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recognized when earned and expenses are recognized when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized in the year for which they are levied. Revenues from grants, entitlements, and donations are recognized in the fiscal year in which all eligibility requirements imposed by the provider have been satisfied.

Governmental fund financial statements are prepared using the modified accrual basis of accounting. Revenues, except for certain grant revenues, are recognized when they become measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. The District considers revenues to be available if they are collected within

60 days of the end of the current fiscal year. When grant terms provide that the expenditure of resources is the prime factor for determining eligibility for Federal, State, and other grant resources, revenue is recognized at the time the expenditure is made.

Under the modified accrual basis of accounting, expenditures are generally recognized when the related fund liability is incurred, except for principal and interest on long-term debt, claims and judgments, and compensated absences, which are recognized when due. Allocations of cost, such as depreciation, are not recognized in governmental funds.

The Proprietary Funds are accounted for as proprietary activities under standards issued by the Financial Accounting Standards Board through November 1989 and applicable standards issued by the Governmental Accounting Standards Board. Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the proprietary funds' principal ongoing operations. The principal operating revenues of the District's internal service funds are charges for workers' compensation and employee dental insurance. Operating expenses include insurance claims and excess coverage premiums. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources, as they are needed.

The charter schools are accounted for as governmental organizations and follow the same accounting model as the District's governmental activities.

➤ Deposits and Investments

Cash deposits are held by banks qualified as public depositories under Florida law. All deposits are insured by the Federal Depository Insurance Corporation (FDIC) and collateralized with securities held in Florida's multiple financial institution collateral pool as required by Chapter 280, Florida Statutes. The statement of cash flows considers cash as those accounts used as demand deposit accounts.

Investments consist of amounts placed with the State Board of Administration for participation in the Local Government Surplus Funds Trust Fund investment pool created by Section 218.405 and 218.417, Florida Statutes, and those made locally. On December 4, 2007, the State Board of Administration restructured the Local Government Surplus Funds Trust Fund to also establish the Fund B Surplus Funds Trust Fund.

The District's investments in the Local Government Surplus Funds Trust Fund, a Securities and Exchange Commission Rule 2a-7 like external investment pool, are reported at fair value which is amortized cost.

The District's investments in the Fund B Surplus Funds Trust Fund are accounted for as a fluctuating net asset value pool, with a fair value factor of 0.51370946 at June 30, 2009. the Fund B is not subject to participant withdrawal requests. Distribution from Fund B, as determined by the State Board of Administration, are effected by transferring eligible cash

or securities to the Local Government Surplus Funds Trust Fund, consistent with the pro rata allocation or pool shareholders of record at the creation of Fund B. One hundred percent of such distributions from Fund B are available as a liquid balance within the Local Government Surplus Funds Trust Fund.

Investments made locally consist of treasury money market funds and are reported at fair value. Types and amounts of investments held at fiscal year-end are described in a subsequent note on investments.

➤ Inventories and Prepaid Items

Inventories consist of expendable supplies held for consumption in the course of District operations. Inventories are stated at cost on a weighted average basis, except that United States Department of Agriculture surplus commodities are stated at their fair value as determined at the time of donation to the District's food service program by the Florida Department of Agriculture and Consumer Services, Bureau of Food Distribution. The costs of inventories are recorded as expenditures at the time individual inventory items are requisitioned for consumption, except for transportation parts. Transportation parts inventory balance is offset on the balance sheet by a fund balance reserve account, which indicates that it does not

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

constitute “available expendable resources” even though it is a component of the current assets.

Certain payments to vendors reflect cost applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

➤ **Capital Assets**

Expenditures for capital assets acquired or constructed for general District purposes are reported in the governmental fund that financed the acquisition or construction. The capital assets so acquired are reported at historical cost in the government-wide statement of net assets but are not reported in the governmental fund financial statements. Capital assets are defined by the District as those costing more than \$750. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated assets are recorded at fair value at the date of donation. Interest costs incurred during construction of capital assets are not considered material and are not capitalized as part of the cost of construction.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

<u>Description</u>	<u>Estimated Lives</u>
Improvements Other than Buildings	5 – 40 years
Buildings and Fixed Equipment	10 – 50 years
Furniture, Fixtures and Equipment	3 – 15 years
Motor Vehicles	5 – 10 years

Current-year information relative to changes in general capital assets is described in a subsequent note.

➤ **Compensated Absences**

Vacation benefits are accrued as a liability as the benefits are earned if the employee’s right to receive compensation is attributable to services already rendered and it is probable that the employer will compensate the employees for the benefits through paid time off or some other means. Sick leave benefits are accrued as a liability using the vesting method. The liability is based on the sick leave accumulated at June 30 by those employees who are currently eligible to receive termination payments and those employees for whom it is probable that they will become eligible to receive termination benefits in the future. The criteria for determining the vacation and sick leave liability is derived from Board policy, negotiated agreements, and state laws.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The entire compensated absence liability is reported on the government-wide financial statements. For governmental fund financial statements, the amount of accumulated vacation and sick leave of employees has been recorded as accrued salaries and benefits to the extent that the amounts are expected to be paid. The balance of the liability is not recorded. The liability at year-end includes salary related payments such as Social Security, Medicare and Florida Retirement System contributions.

➤ **Long-Term Liabilities**

Long-term obligations that will be financed from resources to be received in the future by governmental funds are reported as liabilities in the government-wide statement of net assets. Bond and certificates of participation premiums and discounts, differences between the reacquisition price and net carrying amount of the old debt, and issuance costs, are deferred and amortized over the life of the bonds and certificates of participation using the effective interest method. Bonds and certificates of participation payable are reported net of the applicable premium or discount and differences between the reacquisition price and the net carrying amount of the old debt.

In the governmental fund financial statements, bonds and other long-term obligations are not recognized as liabilities until due. Governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Changes in long-term debt for the current year are reported in a subsequent note.

➤ **State Revenue Sources**

Revenues from State sources for current operations are primarily from the Florida Education Finance Program administered by the Florida Department of Education (Department) under the provisions of Section 1011.62, Florida Statutes. In accordance with this law, the District determines and reports the number of full-time equivalent (FTE) students and related data to the Department. The Department performs certain edit checks on the reported number of FTE and related data, and calculates the allocation of funds to the District. The District is permitted to amend its original reporting for a period of nine months following the date of the original reporting. Such amendments may impact funding allocations for subsequent years. The Department may also adjust subsequent fiscal period allocations based upon an audit of the District's compliance in determining and reporting FTE and related data. Normally, such

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

adjustments are treated as reductions or additions of revenue in the year when the adjustments are made.

The State provides financial assistance to administer certain categorical educational programs. State Board of Education rules require that revenue earmarked for certain programs be expended only for the program for which the money is provided, and require that the money not expended as of the close of the fiscal year be carried forward into the following year to be expended for the same categorical educational programs. The Department generally requires that categorical educational program revenues be accounted for in the General Fund. A portion of the fund balance of the General Fund is reserved in the governmental funds financial statements for the unencumbered balance of categorical educational program resources.

The State allocates gross receipts taxes, generally known as Public Education Capital Outlay money, to the District on an annual basis. The District also received an allocation under the lottery-funded Public School Capital Outlay Program (commonly called the Classrooms First Program). The District is authorized to expend these funds only upon applying for and receiving an encumbrance authorization from the Department. Accordingly, the District recognizes the allocation of Public Educational Capital Outlay (and the Classrooms First Programs funds) as deferred revenue until such time an encumbrance authorization is received.

A schedule of revenue from State sources for the current year is presented in a subsequent note.

➤ **District Property Taxes**

The School Board is authorized by State law to levy property taxes for district school operations, capital improvements, and debt service.

Property taxes consist of ad valorem taxes on real and personal property within the District. Property values are determined by the Sarasota County Property Appraiser, and property taxes are collected by the Sarasota County Tax Collector.

The School Board adopted the 2008 tax levy on September 16, 2008. Tax bills are mailed in October and taxes are payable between November 1 of the year assessed and March 31 of the following year at discounts of up to 4 percent for early payment.

Taxes become delinquent on April 1 of the year following the year of assessment. State law provides for enforcement of collection of personal property taxes by seizure of the property to satisfy unpaid taxes, and for enforcement of collection of real property taxes by the sale of interest-bearing tax certificates to satisfy unpaid taxes. The procedures

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

result in the collection of essentially all taxes prior to June 30 of the year following the year of assessment.

Property tax revenues are recognized in the government-wide financial statements when the Board adopts the tax levy. Property tax revenues are recognized in the governmental fund financial statements when taxes are received by the District, except that revenue is accrued for taxes collected by the Sarasota County Tax Collector at fiscal year-end but

not yet remitted to the District. Because any delinquent taxes collected after June 30 would not be material, delinquent taxes receivable are not accrued and no delinquent tax revenue deferral is recorded.

Millages and taxes levied for the current year are presented in a subsequent note.

➤ **Federal Revenue Sources**

The District receives Federal awards for the enhancement of various educational programs. Federal awards are generally received based on applications submitted to, and approved by, various granting agencies. For Federal awards in which a claim to these grant proceeds is based on incurring eligible expenditures, revenue is recognized to the extent that eligible expenditures have been incurred.

2. BUDGETARY COMPLIANCE AND ACCOUNTABILITY

The Board follows procedures established by State statutes and State Board of Education rules in establishing budget balances for governmental funds as described below:

- Budgets are prepared, public hearings are held, and original budgets are adopted annually for all governmental fund types in accordance with procedures and time intervals prescribed by law and State Board of Education rules.
- Appropriations are controlled at the function level within fund (e.g., instruction, pupil personnel services, and school administration) and may be amended by resolution at any School Board meeting prior to the due date for the annual financial report.
- Budgets are prepared using the same modified accrual basis as is used to account for governmental funds.
- Budgetary information is integrated into the accounting system and, to facilitate budget control, budget balances are encumbered when purchase orders are issued.

2. BUDGETARY COMPLIANCE AND ACCOUNTABILITY (continued)

- Appropriations lapse at fiscal year-end and encumbrances outstanding are honored from the subsequent year's appropriations.
- The reported budgetary data consists of the original budget as well as the final appropriated budget after amendments approved by the board.

3. INVESTMENTS

As of June 30, 2009, the District had the following investments and maturities:

<u>Investment</u>	<u>Maturities</u>	<u>Fair Value</u>
Local Governmental Surplus Funds Trust Funds - Investment Pool A(SBA)	46 Day Average ⁽¹⁾	\$ 192,168,230

Note: (1) The average maturity for the SBA was found at www.sbafla.com

(2) This investment is held under a paying agent agreement in connection with the Qualified Zone Academy Bonds financing arrangement. (See Note 10)

Interest Rate Risk

- Section 218.415(17), Florida Statutes, limits investments maturities to provide sufficient liquidity to pay obligations as they come due. The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses from increasing interest rates, but the policy does state that securities should be invested to provide sufficient liquidity to pay obligations as they come due.
- The maturity of the State Board of Administration Local Government Investment Pool is based on the weighted average of days to maturity (WAM). A portfolio's WAM reflects the average maturity in days based on final maturity or reset date, in the case of floating rate instruments. WAM

3. INVESTMENTS (continued)

- measures the sensitivity of the portfolio to interest rate changes. The maturity of the State Board of Administration Fund B Surplus Funds Trust Fund is based on the weighted average life (WAL). A portfolio's WAL is the dollar weighted average length of time until securities held reach maturity. WAL is based on legal final maturity dates as of June 30, 2009.

Credit Risk

- Section 218.415(17), Florida Statutes, limits investments in money market funds to Securities and Exchange Commission registered money market funds with the highest credit quality rating from a nationally recognized rating agency, and investments in interest-bearing time deposits to qualified public depositories, as defined in Section 280.02, Florida Statutes.
- The District's investment policy authorizes the following investments:
 - Savings accounts.
 - Certificates of deposits.
 - Time deposits.
 - Securities of the United States Government including obligations of the United States Treasury.
 - Investment pools managed and directed by an approved agency of the state.
- As of June 30, 2009, the District's investments in the State Board of Administration Investment Pool B are unrated.
- The District's investment in the State Board of Administration Investment Pool A are rated AAAM by Standard and Poor's.
- The District's investment in the Wells Fargo Advantage 100% Treasury Money Market fund are rated Aaa by Moody's Investor Services and AAAM-G by Standard & Poor's. Investments in the Wells Fargo Advantage Government Money Market fund are rated AAAM by Standard & Poor's and Aaa by Moody's Investor Services.

3. INVESTMENTS (continued)

- The District's investment in US Treasury Obligations is authorized under a forward delivery agreement with the Qualified Zone Academy Bonds paying agent. The forward delivery agreement authorizes the investment of the sinking fund amounts in certain eligible securities, including, without limitation, the Federal National Mortgage Association (FNMA) and Federal Home Loan Mortgage Corporation (FHLMC). The eligible securities must have a maturity date that is on or before November 16, 2021.

Custodial Credit Risk

- Section 218.415(18), Florida Statutes, requires the District to earmark all investments and 1) if registered with the issuer or its agents, the investment must be immediately placed for safekeeping in a location that protects the governing body's interest in the security; 2) if in a book entry form, the investment must be held for the credit of the governing body by a depository chartered by the Federal Government, the State, or any

other State or territory of the United States which has a branch or principal place of business in this State, or by a national association organized and existing under the laws of the United States which is authorized to accept and execute trusts and which is doing business in this State, and must be kept by the depository in an account separate and apart from the assets of the financial institution; or 3) if physically issued to the holder but not registered with the issuer or its agents, must be immediately placed for safekeeping in a secured vault. The District's \$

investment in the Treasury and Government Money Market Fund, 100 percent comprised of U.S. Treasury Bills and Notes, are held by the safekeeping agent, in the name of the District.

Concentration of Credit Risk

- Section 218.415(17), Florida Statutes, authorizes the District to invest in the Local Government Surplus Funds Trust Fund, any intergovernmental investment pool, the money market funds registered with the Securities and Exchange Commission, interest-bearing time deposits or saving accounts, and direct obligations of the U.S. Treasury.
- Investments at June 30, 2009 are comprised of 73 percent in the State Board of Administration investment pool A. The weighted average maturity of the portfolio may not exceed 90 days.

4. RECEIVABLES

The majority of receivables are due from other governmental agencies. These receivables and the remaining accounts receivable are considered to be fully collectible. As such, no allowance for uncollectible accounts receivable is accrued.

The District entered into a financing arrangement on June 1, 2003, which arrangement was characterized as a lease-purchase agreement, with the Financing Corporation for the School Board of Sarasota County, Florida (the Corporation), whereby the District secured refinancing of various educational facilities in the total amount of \$59,865,000. The refinancing was accomplished through the issuance of Refunding Certificates of Participation, Series 2003, to be repaid from the proceeds of rents paid by the District.

The District also entered into a financing arrangement on September 15, 2004. This arrangement was characterized as a lease-purchase agreement, with the Corporation whereby the District secured financing of various educational facilities in the amount of \$50,000,000. The financing was accomplished through the issuance of Certificates of Participation, Series 2004, to be repaid from the proceeds of rents paid by the District.

The District also entered into a financing arrangement on March 17, 2009. The financing was accomplished through the issuance of Certificates of Participation, Series 2009, to be repaid from the proceeds of rents paid by the District.

As a condition of the financing arrangement, the District has given a ground lease on District property to the Corporation with a rental fee of \$10 per year. The 2003, 2004 and 2009 leases have an original term extending to the date that the

➤ State School Bonds

These bonds are issued by the State Board of Education on behalf of the District. The bonds mature serially, and are secured by a pledge of the District's portion of the State-assessed motor vehicle license tax. Additionally, the State's full faith and credit is also pledged as security for these bonds. Principal and interest payments, investment of Debt Service Fund resources, and compliance with reserve requirements are administered by the State Board of Education and the State Board of Administration.

➤ District Revenue Bonds

Race Track Revenue Refunding Bonds - These bonds are issued by the District and are authorized by Chapter 83-250, Laws of Florida, which provides that the bonds be secured from the pari-mutuel tax proceeds distributed annually to Sarasota County from the State's Pari-Mutuel Tax Collection Trust Fund pursuant to Chapter 550, Florida Statutes (effective

9. QUALIFIED ZONE ACADEMY BONDS PAYABLE

The District entered into a purchase contract dated November 1, 2005, under the Qualified Zone Academy Bonds (QZAB) Program. The QZAB program provides no interest cost financing to purchase certain goods or services for schools located in eligible District areas (zones). The District received financing of \$1,299,696 from a local bank on November 16, 2005. Interest on the debt is paid by the United States Government through the issuance of Federal income tax credits to the holders of the QZAB debt (the bank). The rate of return to the bank was established by the United State Government at the time of the sale.

Repayment of the original \$1,299,696 financing proceeds is due in full on November 16, 2021. In connection with the financing, the District entered into a forward delivery agreement dated November 16, 2005, requiring a single deposit of \$726,519 into a sinking fund. The forward delivery agreement provides for a guaranteed investment return of 3.67 percent per annum whereby the required deposit, along with accrued interest, will be sufficient to repay the debt at maturity. The invested assets accumulated pursuant to the forward delivery agreement are held under a custodial agreement until the debt matures. There is \$839,436 in this sinking fun at June 30, 2009.

12. RESERVE FOR ENCUMBRANCES

Appropriations in governmental funds are encumbered upon issuance of purchase orders for goods and services. Even though appropriations lapse at the end of the fiscal year, unfilled purchase orders of the current year are carried forward and the next year's appropriations are likewise encumbered.

The Florida Department of Education requires that fund balances be reserved at fiscal year-end to report an amount likely to be expended from the 2009-2010 fiscal year budget as a result of purchase orders outstanding at June 30, 2009.

16. STATE RETIREMENT PROGRAMS

Defined Benefit Plan. All regular employees of the District are covered by the Florida Retirement System (FRS). The FRS is primarily a State-administered cost-sharing multiple-employer defined benefit retirement plan (Plan). Plan provisions are established by Chapters 121 and 122, Florida Statutes; Chapter 112, Part IV, Florida Statutes; Chapter 238, Florida Statutes; and Florida Retirement System Rules, Chapter 60S, Florida Administrative Code, wherein Plan eligibility, contributions, and benefits are defined and described in detail. Essentially all regular employees of participating employers are eligible and must enroll as members of the FRS. Benefits in the defined benefit plan vest at six years of service. The defined benefit plan also includes an early retirement provision, but imposes a penalty for each year a member retires before the specified retirement age. The defined benefit plan provides retirement, disability, and death benefits and annual cost-of-living adjustments, as well as supplements for certain employees to cover social security benefits lost by virtue of retirement system membership.

A Deferred Retirement Option Program (DROP) subject to provisions of Section 121.091, Florida Statutes permits employees eligible for normal retirement under the Plan to defer receipt of monthly benefit payments while continuing employment with an FRS employer. An employee may participate in the DROP for a period not to exceed 60 months after electing to participate. During the period of DROP participation, deferred monthly benefits are held in the FRS Trust Fund and accrue interest.

Funding Policy. The contribution rates for Plan members are established and may be amended by the State of Florida. During the 2008-2009 fiscal year, contribution rates were as follows:

<u>Class or Plan</u>	<u>Employee</u>	<u>Employer(A)</u>
Florida Retirement System, Regular	0.00	9.85%
Florida Retirement System, County Elected Officials	0.00	16.53%
Florida Retirement System, Sr. Management Service	0.00	13.12%
Florida Retirement System, DROP, Teachers' Retirement System DROP	0.00	10.91%
Florida Retirement Special Risk System	0.00	20.92%
Florida Retirement System, Reemployed Retiree	(B)	(B)

Note: (A) Employer rates include the post-employment health insurance supplement of 1.11 percent and 0.05 percent for administrative cost of the Public Employee Optional Retirement Program.
 (B) Contribution rates are dependent upon the retirement class in which reemployed.

16. STATE RETIREMENT PROGRAMS (continued)

The District's liability for participation in the Plan is limited to the payment of the required contribution at the rates and frequencies established by law on future payrolls of the District. The District's contributions to the Plan (including employee contributions) for the fiscal years ended June 30, 2007, June 30, 2008, and June 30, 2009 totaled \$23,724,441, \$24,333,012 and \$23,246,508 respectively, which were equal to the required contributions for each fiscal year.

Defined Contribution Plan. Effective September 1, 2002 the Public Employee Optional Retirement Program (PEORP) was implemented as a defined contribution plan alternative available to all FRS members in lieu of the defined benefit plan. Employer contributions are defined by law, but the ultimate benefit depends in part on the performance of investment funds. The PEORP is funded by employer contributions that are based on salary and membership class (Regular Class, Special Risk Class, etc.). Contributions are directed to the individual member accounts, and the individual members allocate contributions and account balances among various approved investment choices. There were 653 District participants in the PEORP during the 2008-09 fiscal year. Required employer contributions made to the program for the fiscal years ended June 30, 2009 totaled \$2,433,351.

Pension Reporting. The financial statements and other supplemental information of the FRS are included in the comprehensive annual financial report of the State of Florida, which may be obtained by contacting the Department of Financial Services in Tallahassee, Florida. Also, an annual report on the FRS, which includes its financial statements, required supplemental information, actuarial report, and other relevant information, may be obtained from the State of Florida, Division of Retirement in Tallahassee, Florida. An annual report on the Plan which includes its financial statements, required supplemental, actuarial report, and other relevant information may also be obtained by contracting the Florida Department of Management Services, Division of Retirement, 2639 North Monroe Street, Building C, Tallahassee, Florida, 32399-1560.

17. SPECIAL TERMINATION BENEFITS

On May 18, 1993, the Board approved the establishment of a one-time early retirement incentive program for members of the instructional and classified collective bargaining units and its administrative personnel who signed an agreement to participate in the program and agreed to retire from employment under the provisions of the Florida Retirement System as explained in Note 16. The early out program was offered only until August 15, 1993. Participating employees were required to select an option under the existing provisions of the Florida Retirement System which pays over the life of the employee the maximum retirement benefit payable, forfeiting an option which would pay decreased retirement benefits for the lifetime of both the employee and a joint annuitant (Survivor). To compensate for the loss of these extended survivor benefits, the School Board, as part of the Early Out Program, purchased on behalf of participating employees a flexible premium universal life insurance policy to be paid for over the life of the retiree, providing death benefits upon the qualified employee's death equaling the amount the survivor would have received, including

17. SPECIAL TERMINATION BENEFITS (continued)

a 3 percent annual cost of living adjustment (COLA), had the qualified employee selected the Florida Retirement System option which paid survivor benefits. Premiums are to be paid for over the life of the participating employee. The District reported a liability of \$3,596,071 in the Statement of Net Assets representing the present value of the estimated future payments for life insurance coverages for the 109 employees who elected to retire during the 1992-93 and 1993-94 fiscal years and participate in the program.

18. POSTEMPLOYMENT HEALTH CARE BENEFITS

Plan Description – Pursuant to the provisions of Section 112.0801, Florida Statutes, former employees who retiree from the District and eligible dependents, may continue to participate in the district's self-insured health and hospitalization plan for medical, prescription drug, dental and vision coverages. The District subsidizes the premium rates paid by the retirees by allowing them to participate in the plan at reduced or blended group (implicity subsidized) premium rates for both active and retired employees. These rates provide an implicit subsidy for retirees because, on an actuarial basis, their current and future claims are expected to result in higher costs to the plan on average than those of active employees. The benefits provided under this defined benefit plan are provided for a fixed number of years determined at the time of retirement based on the number of years worked for the District. Retirees are required to enroll in the Federal Medicare program for their primary coverage as soon as they are eligible.

Funding Policy – The District has not advanced-funded or established a funding methodology for the annual Other Postemployment Benefit (OPEB) costs or the net OPRB obligation. For the 2008-09 fiscal year, 464 retirees and 65 eligible dependents received postemployment health care benefits. The District provided required contributions of \$812,370 toward annual OPEB costs, comprised of benefit payments made on behalf of retirees for claims expenses (net of reinsurance), administrative expenses, and reinsurance payments, and net of retiree contributions totaling \$2,384,456. Required contributions are based on projected pay-as-you-go financing.

18. POSTEMPLOYMENT HEALTH CARE BENEFITS (continued)

Annual OPEB Cost and Net OPEB Obligation – The following table shows the District’s annual OPB cost for the year, the amount actually contributed to the plan, and changes in the District’s net OPEB obligation:

<u>Description</u>	<u>Amount</u>
Normal Cost (service cost for one year)	1,600,209
Amortization of Unfunded Actuarial Accrued Liability	861,945
Interest on Normal Cost and Amortization	<u>98,486</u>
Annual Required Contribution	2,560,640
Interest on Net OPEB Obligation	101,388
Adjustment to Annual Required Contribution	<u>(90,526)</u>
Annual OPEB Cost (expense)	2,571,502
Contribution Toward the OPEB Cost	<u>(812,370)</u>
Increase in Net OPEB Obligation	1,759,132
Net OPEB Obligation, Beginning of Year	<u>2,534,693</u>
Net OPEB Obligation, End of Year	<u><u>\$ 4,293,825</u></u>

The District’s annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation as of June 30, 2009, was as follows:

<u>Fiscal Year</u>	<u>Annual OPEB Cost</u>	<u>Amount Contributed</u>	<u>Percentage of Annual OPEB Cost Contributed</u>	<u>Net OPEB Obligation</u>
2006-07	1,794,183	307,319	17.1%	1,486,864
2007-08	1,923,831	876,002	45.5%	2,534,693
2008-09	2,571,502	812,370	31.6%	4,293,825

Funded Status and Funding Progress – As of June 30, 2009, the most recent actuarial valuation date, the actuarial accrued liability for benefits was \$24,931,296, and the actuarial value of assets was \$0, resulting in an unfunded actuarial accrued liability of \$24,931,296. The covered payroll (annual payroll for active participating employees) was \$274,876,415 for the 2008-09 fiscal year, and the ratio of the unfunded actuarial accrued liability to the covered payroll was 9.1 percent.

18. POSTEMPLOYMENT HEALTH CARE BENEFITS (continued)

Actuarial Methods and Assumptions – Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment and termination, mortality, and the healthcare cost trends. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. Projections of benefits for financial reporting purposes are based on the substantive plan provisions, as understood by the employer and participating members, and include the type of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and participating members. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

The District's initial OPEB actuarial valuation as of July 1, 2006, used the entry age actuarial cost method to estimate both the unfunded actuarial liability as of June 30, 2009 and to estimate the District's 2008-09 fiscal year annual required contribution. This method was selected because it produced the best estimate of the OPEB liability and annual cost. Because the OPEB liability is currently unfunded, the actuarial assumptions include a 4 percent rate of return on invested assets, which is the District's long-term expectation of investment returns under its investment policy. The actuarial assumptions also include a payroll growth of 4.50 percent per year, and an annual healthcare cost trend rate of 10.50 percent for the 2008-09 fiscal year grading to 5.50% for fiscal year ending 6/30/2014. The unfunded actuarial accrued liability is being amortized as a level of percentage of projected payroll growth on an open basis. The remaining amortization period at June 30, 2009 is 27 years.

20. RISK MANAGEMENT PROGRAMS

The District has established a cafeteria plan under Section 125 of the Internal Revenue Code whereby the Board will purchase various insurance products for the employee. In addition, an employee may purchase additional insurance, which qualifies for salary reduction under Internal Revenue Service guidelines. The cafeteria plan is accounted for as an Internal Service Fund.

The District is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. Workers' compensation, automobile liability, and general liability coverage, and certain dental benefits contained within the District's cafeteria plan, are being provided on a self-insured basis up to specified limits. The District has contracted with an insurance administrator to administer the worker's compensation and dental benefits self-insurance programs, including the processing, investigation, and payment of claims. The District has entered into an insurance agreement for their worker's compensation plan to provide specific excess coverage of claim amounts above the stated amount on an individual claim basis and aggregate excess coverage up to \$25 million. For general liability coverage the District depends on the Florida Sovereign Immunity Act, Section 768.28, Florida Statutes, to limit their potential tort liability to \$100,000 per person or \$200,000 per occurrence.

20. RISK MANAGEMENT PROGRAMS (continued)

The District's health and hospitalization insurance program is administered by an insurance carrier under an agreement wherein the total premium is divided into equal monthly payments.

A liability in the amount of \$7,533,468 for the worker's compensation, the general liability, the auto liability, and the dental liability funds was actuarially determined to cover estimated incurred but not reported insurance claims payable at June 30, 2009, and is net of excess insurance recoverable on unpaid claims. A liability in the amount of \$118,390 relates to the District's cafeteria plan fund. Nonincremental claims expense have been included as part of the liabilities.

The following schedule represents the changes in claims liability for the past two fiscal years for the District's self-insurance program.

	<u>Beginning of Fiscal Year Liability</u>	<u>Current Year Claims and Changes in Estimates</u>	<u>Claims Payments</u>	<u>Balance at Fiscal Year End</u>
2007-2008	\$ 8,094,175	\$ 3,480,614	\$ (3,636,235)	\$ 7,938,554
2008-2009	7,938,554	3,539,049	(3,825,745)	7,651,858

21. LITIGATION

The District is contingently liable with respect to lawsuits and other claims that arise in the ordinary course of its operations. Management believes that any liability arising from such claims would be immaterial to the financial statements.

22. CONTINGENCY

The District receives grant funds from the federal government. Certain expenditures of these funds are subject to audit by the grantor, and the reporting entity is contingently liable to refund amounts received in excess of allowable expenditures.
