The School Board of Sarasota County, Florida 2017-2018 General Fund Budget

Sarasota County School Board Vision Statement

The School District of Sarasota County places learning at the center of its activities to enable all learners to lead productive, responsible, and healthful lives.

Sarasota County School Board Mission Statement

The School District of Sarasota County prepares students to achieve the highest learning standards by engaging a high-quality staff, involved parents, and a supportive community.

General Fund Overview

The General Fund is the chief operating fund of the school district. Generally accepted accounting principles prescribe that the General Fund be used to account for all financial resources except those required to be accounted for in another fund.

The General Fund revenues are controlled by the State Legislature. Each year, the Legislature appropriates funding for school districts using the Florida Education Finance Program (FEFP). This funding system was enacted by the Florida Legislature in 1973 to guarantee equalized funding per student on a state wide basis. A key feature of the FEFP funding model is that it bases financial support for education upon an individual student's participation in specific education programs rather than upon the number of teachers or classrooms.

In addition to the base funding, the Legislature also appropriates funds to school districts called Categoricals. Categoricals are other Legislative or voter mandated educational programs. The largest categorical is the student class size amendment approved by voters in 2002. This amendment became fully effective in the 2010 - 2011 school year. Classrooms where core subject content is taught can have no more than 18 students for grades kindergarten through grade 3, no more than 22 students in grades 4 through 8, and no more than 25 students in grades 9 through 12. The 2013 Legislature added that schools of choice are allowed to apply the number of students per class averaged per grade category. The penalty for classrooms that have more students than permitted is the loss of the class size categorical and half of the base student allocation for each student that exceeds the maximum. School districts out of compliance must submit a corrective action plan by February 1, 2019, to receive a portion of the funding taken away for noncompliance. School districts that in compliance will receive a redistribution of penalty funds paid by the districts out of compliance.

The Legislature has established other laws that allow school districts to raise additional revenue. The 2001 Legislature provided authority for an additional levy, not to exceed four years, for operational purposes to be authorized by the electorate through a local referendum. The Sarasota County School Board held a local referendum in 2002 and the voters approved a 1 mill levy that was extended an additional 4 years by voters in 2006, 2010, and 2014. This funding source accounts for approximately 13% of the total revenue in the General Fund.

2017-2018 General Fund Budget

The General Fund's primary expenditure is salary and employee benefits, representing approximately 75% of all expenditures. The salaries paid out of the General Fund cover most all staff in schools and support departments. This includes teachers, bus drivers, custodians, etc. The other 25% of expenditures provides for instructional materials, utilities, fuel for buses, charter school payments etc.

The 2017-2018 Budget

Budget development and preparation is a year round continuous process. The 2017-18 budget process began immediately after the 2016-17 final budget was adopted. Student projections are forecasted over a five-year period identifying both operating and capital needs. The first budget workshop was held on January 17, 2017. A special budget workshop was held on January 25, 2017 to discuss 2017-2018 Budget Priorities.

The February 21, 2017 workshop included the review of the Budget Calendar, a 2017-2018 Budget Proposal on Level Funding and the Governor's Budget, an update of the projected results of General Fund operations through June 30, 2017, and an update on future Capital Fund projects through 2021-2022. The School Board agreed upon adding new positions as a result of budget priorities.

The next budget workshop was held March 21, 2017. At this workshop, the General Fund estimated results of operations through June 30, 2017 were reviewed as well as projections for the 2017-18 Preliminary Budget based upon both Level Funding and the Governor's Budget. At the School Board meeting, later the same day, school and department budgets for the 2017-2018 school year were approved for release to allow for staffing to be completed prior to the end of the school year.

During the May 16, 2017 workshop, the Capital Improvement Plan update was reviewed. Also at this meeting, the Board discussed the potential impacts of HB 7069, in particular, the impact on the Capital Fund budget with the requirement to wholly share local capital outlay revenue with charter schools.

At the June 20, 2017 workshop, the Board reviewed estimated fiscal year 2016-2017 results of operations for the General Fund. These were estimated based upon revenues and expenditures through May 31, 2017. The Preliminary fiscal year 2017-18 Budget was also reviewed based upon positions added from the budget priorities, student growth, waivers during the staffing process and updated legislative information.

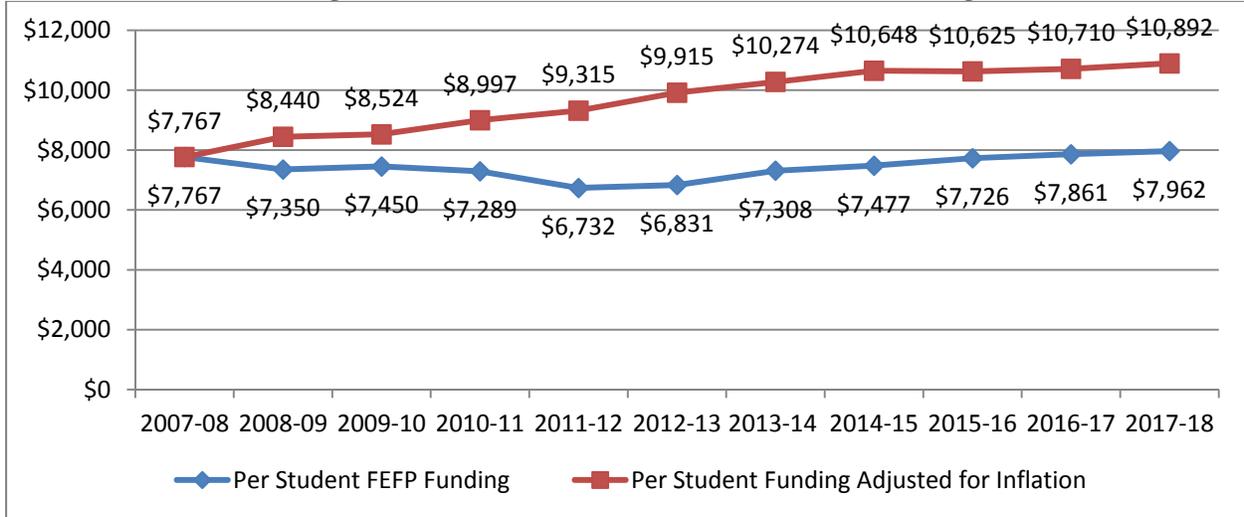

Revenues

As mentioned previously, the Florida Legislature determines the funding for Public Education on an annual basis. Using the FEFP original calculation per year, the chart below reflects the amount per student Sarasota County School District received from the Florida Legislature's budgeted appropriation. The amount per student in the 2007-2008 fiscal year was \$7,767 per student. The amount provided per student for the 2017-2018 fiscal year is \$7,962. This represents a \$195 or 2.5% increase in funding over the 11-year period. In addition, it was not until the 2016-2017 fiscal year that funding reached or exceeded 2007-2008 funding levels. The chart below also displays

The School Board of Sarasota County, Florida 2017-2018 General Fund Budget

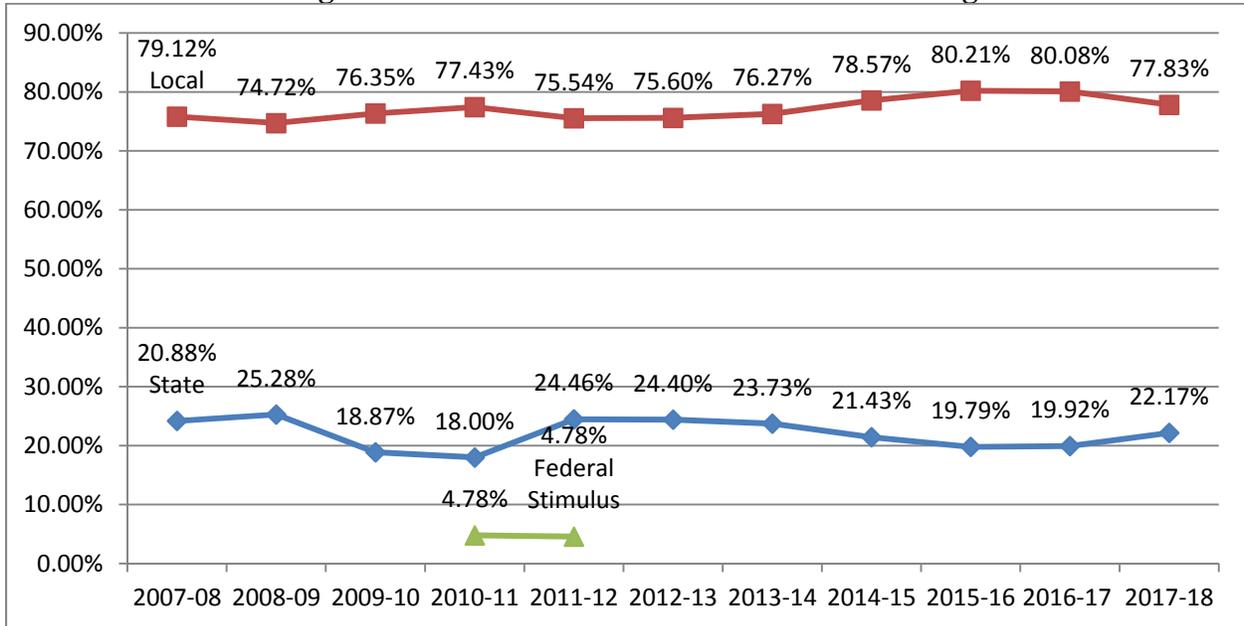

what the amount per student would have been if the Legislature had funded education based upon the growth in the consumer price index.

Funding Per Student - Florida Education Finance Program

The Legislature uses a combination of state funding and local property taxes to fund the state’s K-12 public education system. During the great recession, the state also received supplemental stimulus funding from the Federal Government to support education. The following graph is the historical percentage of the funding the Sarasota County Public Schools received by revenue source as provided by the Florida Legislature, through the Florida Education Finance Program. The graph below highlights how where the Sarasota County School District funding from the FEFP is derived from local sources.

Voted Millage Referendum Update

On March 25, 2014, voters in Sarasota County voted to continue the one-mill levy to preserve quality schools for another four years. This vote continued the tax levy that was originally passed by the voters in 2002, renewed in 2006, renewed in 2010, and renewed in 2014. This vote allows the District to maintain existing programs, provide additional programs and continue the District's commitment to quality education. This revenue source will continue until the fiscal year ending June 30, 2018. In the below tables are details of how the voted millage has been used.

Original Voted Millage Referendum - March 19, 2002

Appropriations for the Fiscal Year 2002-2003

Description	Amount
Without the passage of the referendum the school district was going to raise class size by an average of four students per classroom and cut other direct school support positions. With the passage of the referendum the district funded 235 teachers, 23 teacher aides, 9 Guidance Counselors, and 9 school secretaries for a total of 276 positions.	\$15,166,376
A three percent cost of living increase was placed into the salary schedules.	\$5,405,095
Total Appropriated in 2002-2003	\$20,571,471

Appropriations for the Fiscal Year 2003-2004

Description	Amount
Continued funding the 276 positions from 2002-2003 that were saved as a result of the referendum.	\$15,097,563
The Selby Foundation funded the building of elementary science labs. The referendum is providing funding of a Science Teacher for each lab. The students that are speakers of other languages class size was reduced, school psychologists, social workers, behavior teachers were added to reduce the number of students assigned to staff, the number of students assigned to guidance counselors was reduced from over 500 by 50 to 100 students for each guidance counselor, and aide / clerical support was added to the schools. The new positions added in 2003-2004 consisted of 90 teachers, 10 teacher aides, 14 Guidance Counselors, 10 School Secretaries, 2 School Psychologists and 1 social worker. The new positions of 127 brought the total number of positions funded by the referendum to 403.	\$6,972,785
The state funding was continuing to fall below the consumer price index increases and in 2003-2004 the charter schools were given an allocation based upon their percentage of student population to the total district.	\$1,023,632
The summer school program was expanded to include reading remediation for grades two and three, a middle school transition program for entering elementary students at each middle school, grade nine transition program for entering middle school students at High Schools, remediation English I & II, and Algebra 1A & IB programs.	\$1,245,549
