

MAP 2007-2008

Use of FCAT Scores to Determine Student Achievement Component for MAP

District K-12 Instructional Personnel

District-developed value tables will be used to calculate the value scores for all FCAT-tested students school-wide. The average value score for district K-12 instructional personnel will be based on all students at the appropriate grade levels in reading and/or mathematics. Adjustments will be made for personnel who work at more than one school and/or work with specific students. The average value score will be weighted by the number of students at each school and, if applicable, by the amount of time spent at each location.

District K-12, Scope of Assignment			Grades/Schools/FCAT	
Schools Served	Students Served	Subject Area Focus	Grade Levels & Schools	FCAT Content
All	All	No specific subject	3 – 10; all schools	Reading & Math
Selected	All	No specific subject	3-5, 6-8, and/or 9-10; selected schools	Reading & Math
All	Selected	No specific subject	Assigned students in 3-10; all schools	Reading & math
Selected	Selected	No specific subject	Assigned 3-10 students; specific schools	Reading & Math
All	Selected	Specific subject(s)	Assigned students 3-10; all schools	Reading or Math
Selected	All	Specific subject(s)	3-5, 6-8, and/or 9-10; specific schools	Reading or Math
Selected	Selected	No specific subject	Assigned 3-10 students; specific schools	Reading & Math
